

LEGENDE DE LA CARTE GENERALE :

échelle : 1/95.000e.

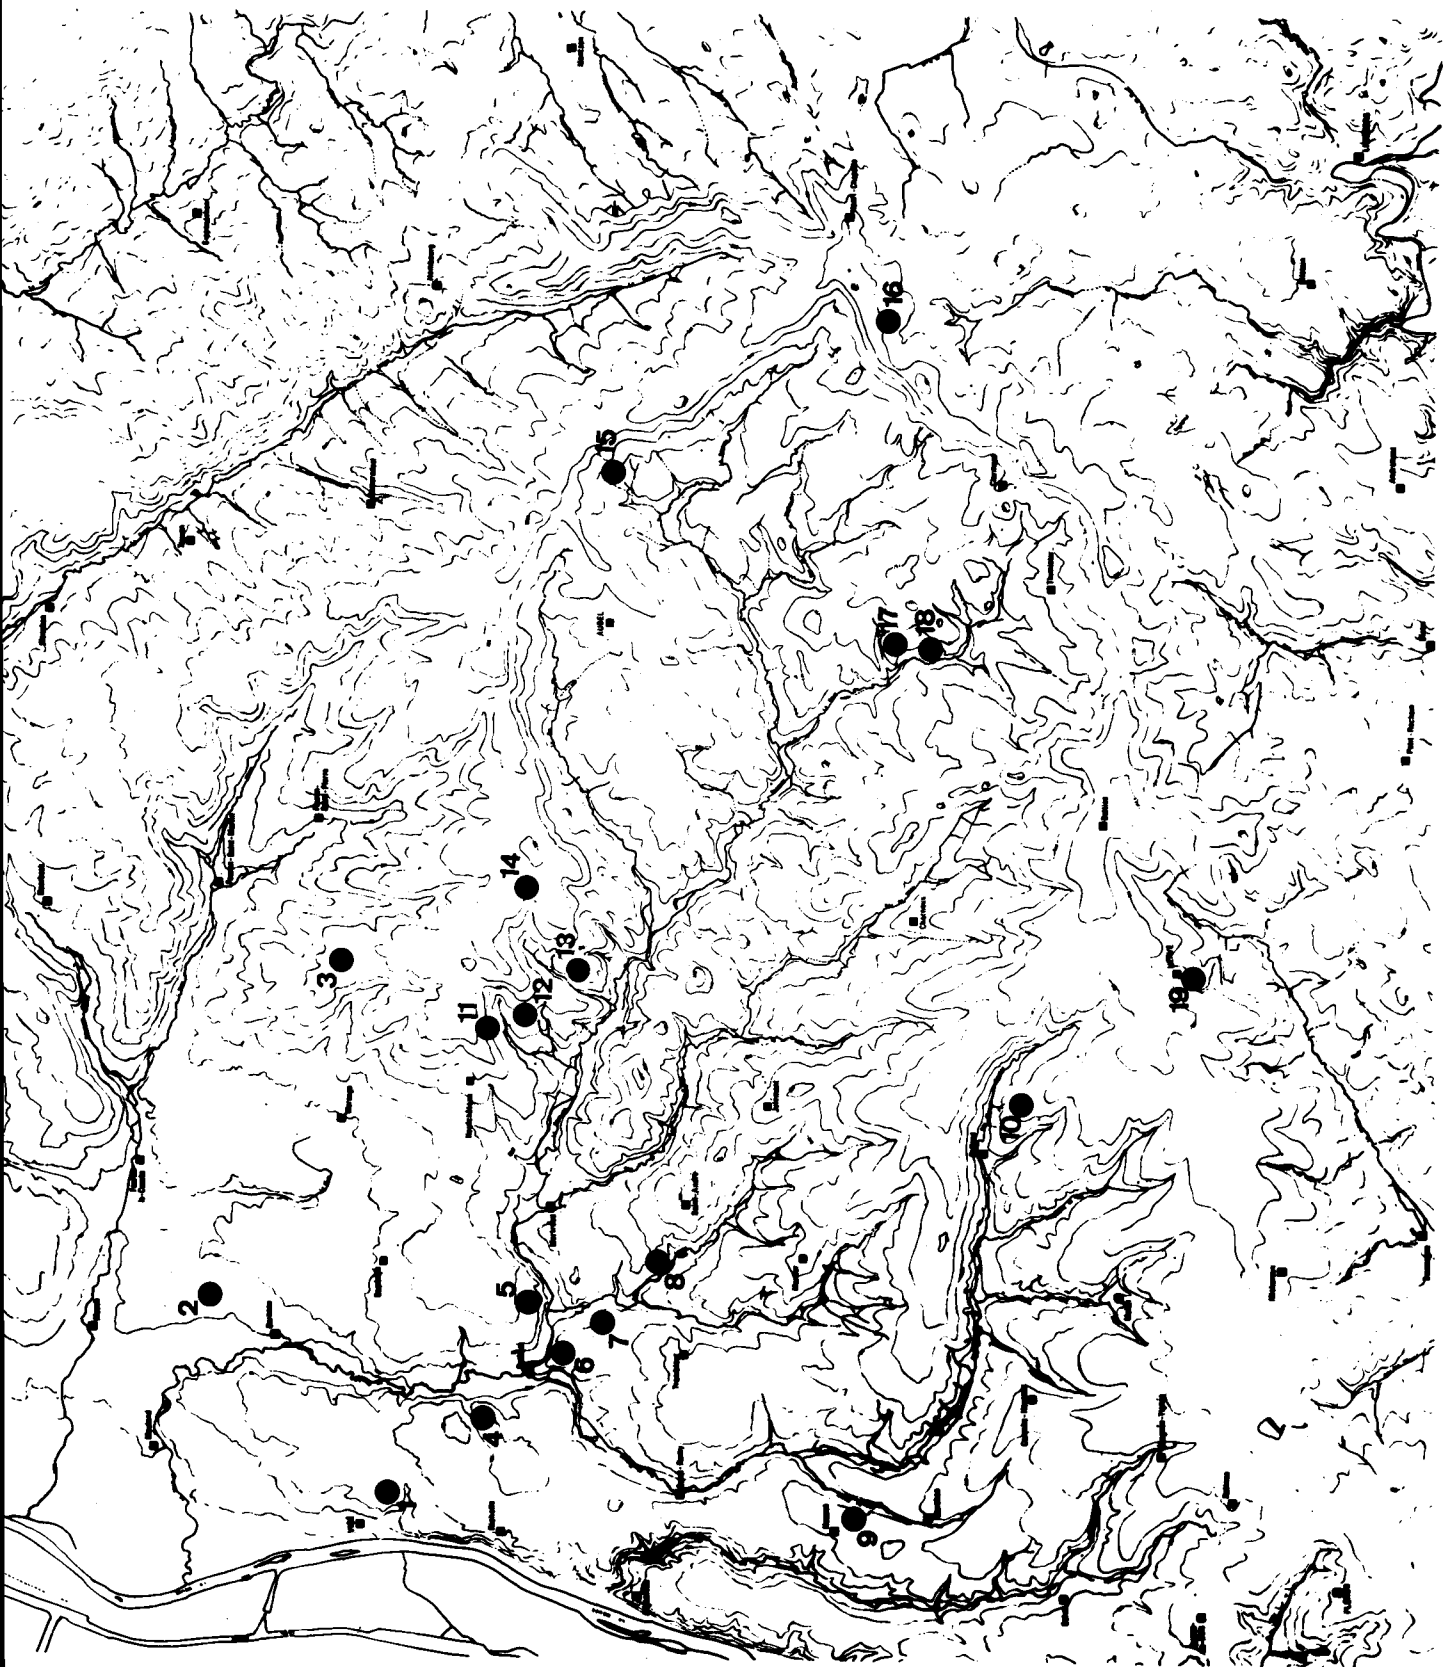

équidistance : 20 m.

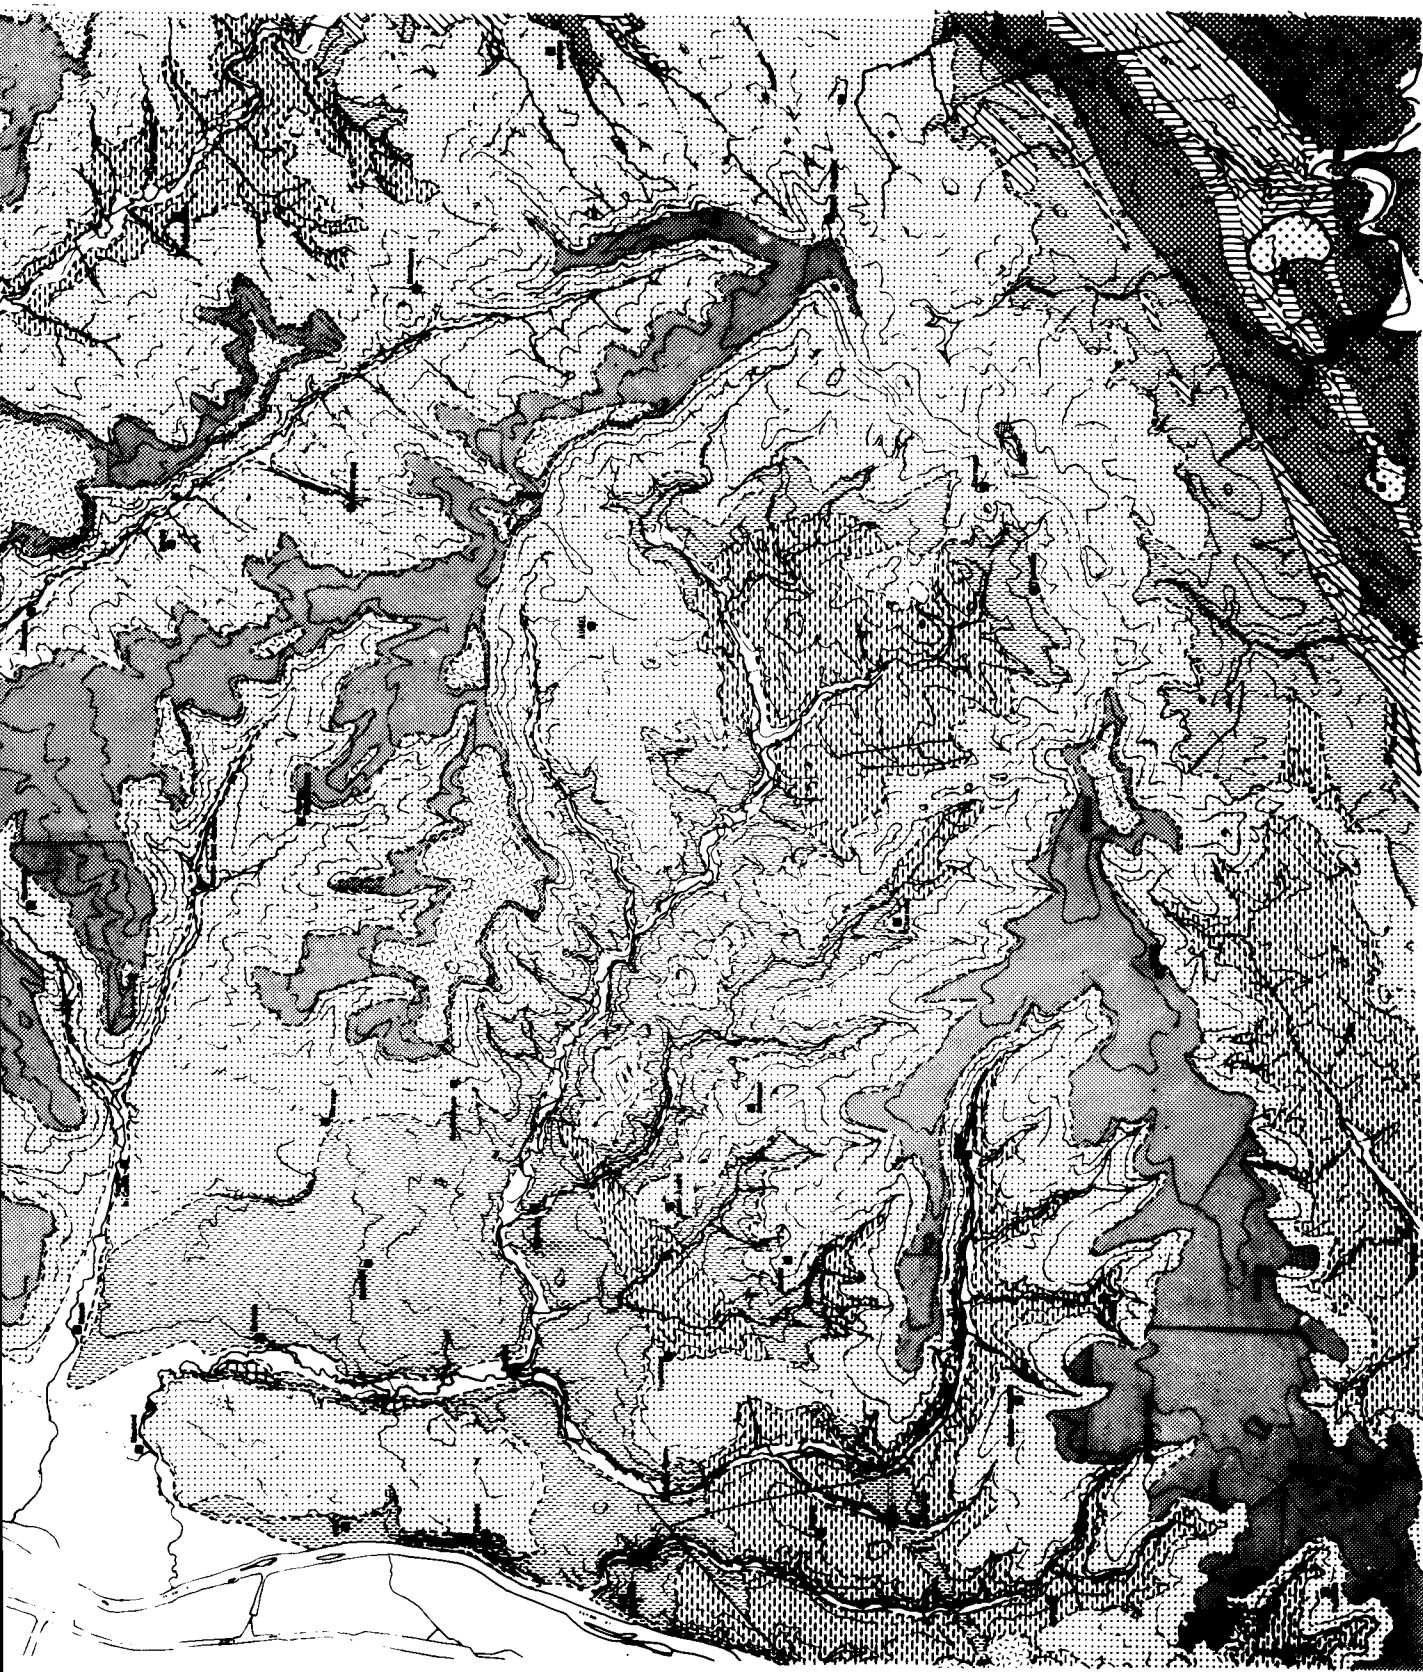

I. TOPOGRAPHIE

- |                       |                                |
|-----------------------|--------------------------------|
| 1. Lorette            | 11. Aubin-Neufchâteau          |
| 2. Plaine de Berneau  | 12. Les Waides                 |
| 3. Ferme de la Heid   | 13. Ferme de la Mol            |
| 4. Sur-le-Bois        | 14. Près du Bois de la Cœnelle |
| 5. Al Grasse Poye     | 15. Berg                       |
| 6. Campagne de Robiet | 16. La Croix de Pierre         |
| 7. Chenestre          | 17. L'Engin                    |
| 8. Près de Corti      | 18. Bois de Clermont           |
| 9. Housse             | 19. Herve                      |
| 10. Bolland           |                                |

II. GEOLOGIE

	étage frasnien (Fr)	}	Dévonien sup.
	étage famennien (Fa)		
	étage tournaisien (T)	}	Carbonifère
	étage viséen (V)		
	étage inf. (H1)		
	houiller (H2)		
	étage senonien (Cp)	}	Crétacé sup.
	étage maastrichtien (M)		
	dépôts inf. marins (Om)	}	Oligocène
	dépôts sup. continentaux (Onx)		
	alluvions modernes des vallées (alm)		Holocène

LEGENDE ET SIGNES CONVENTIONNELS :

I. LEGENDE DES CARTES

Equidistance : 10 m.

 route, chemin	 rivière, ruisseau
 sentier	 cours d'eau intermittent
 maison, ferme	 source
 moulin	 pont
 église	 gué
 chapelle	
 croix	

Les cartes figurées dans ce travail ont été établies d'après les cartes de l'I.G.M.B. et de l'I.G.N.B.

II. CONVENTION DE DESSIN

 orientation du débitage, bulbe présent
 orientation du débitage, bulbe absent
 fracture
 arête écrasée
 arête émoussée
 bouchardage
 polissage
 cortex

Les dessins ont été exécutés par l'auteur. Ils sont reproduits à l'échelle 1/1.

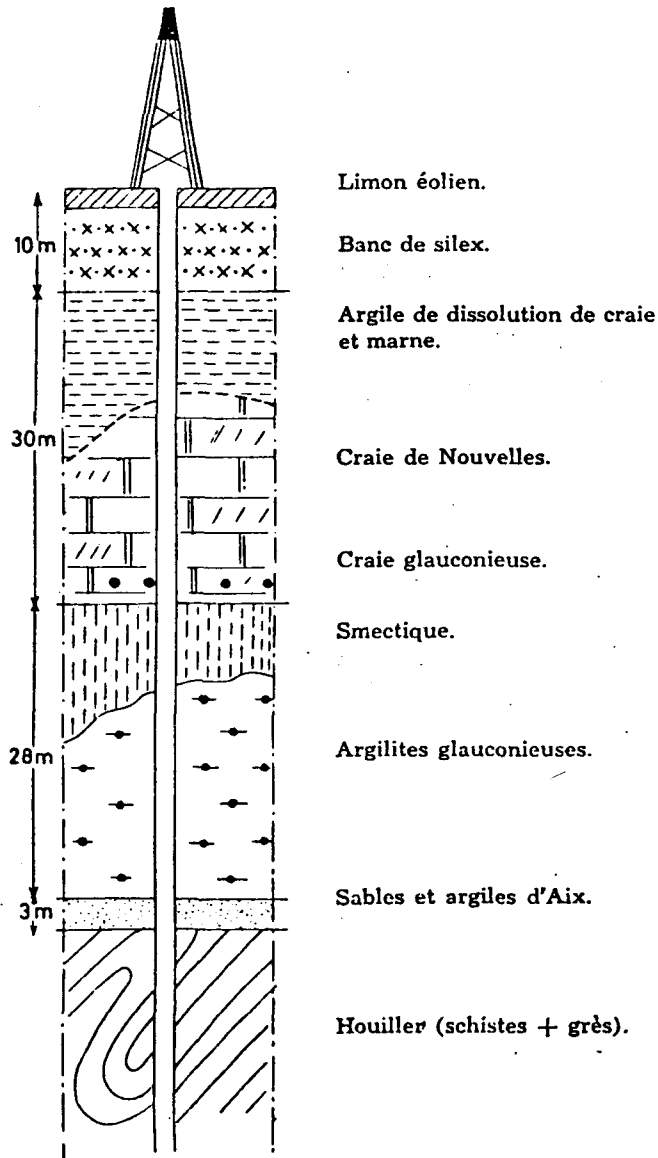

pl.1 - Terrasses de la Meuse en aval de Liège (d'après P.Macar).

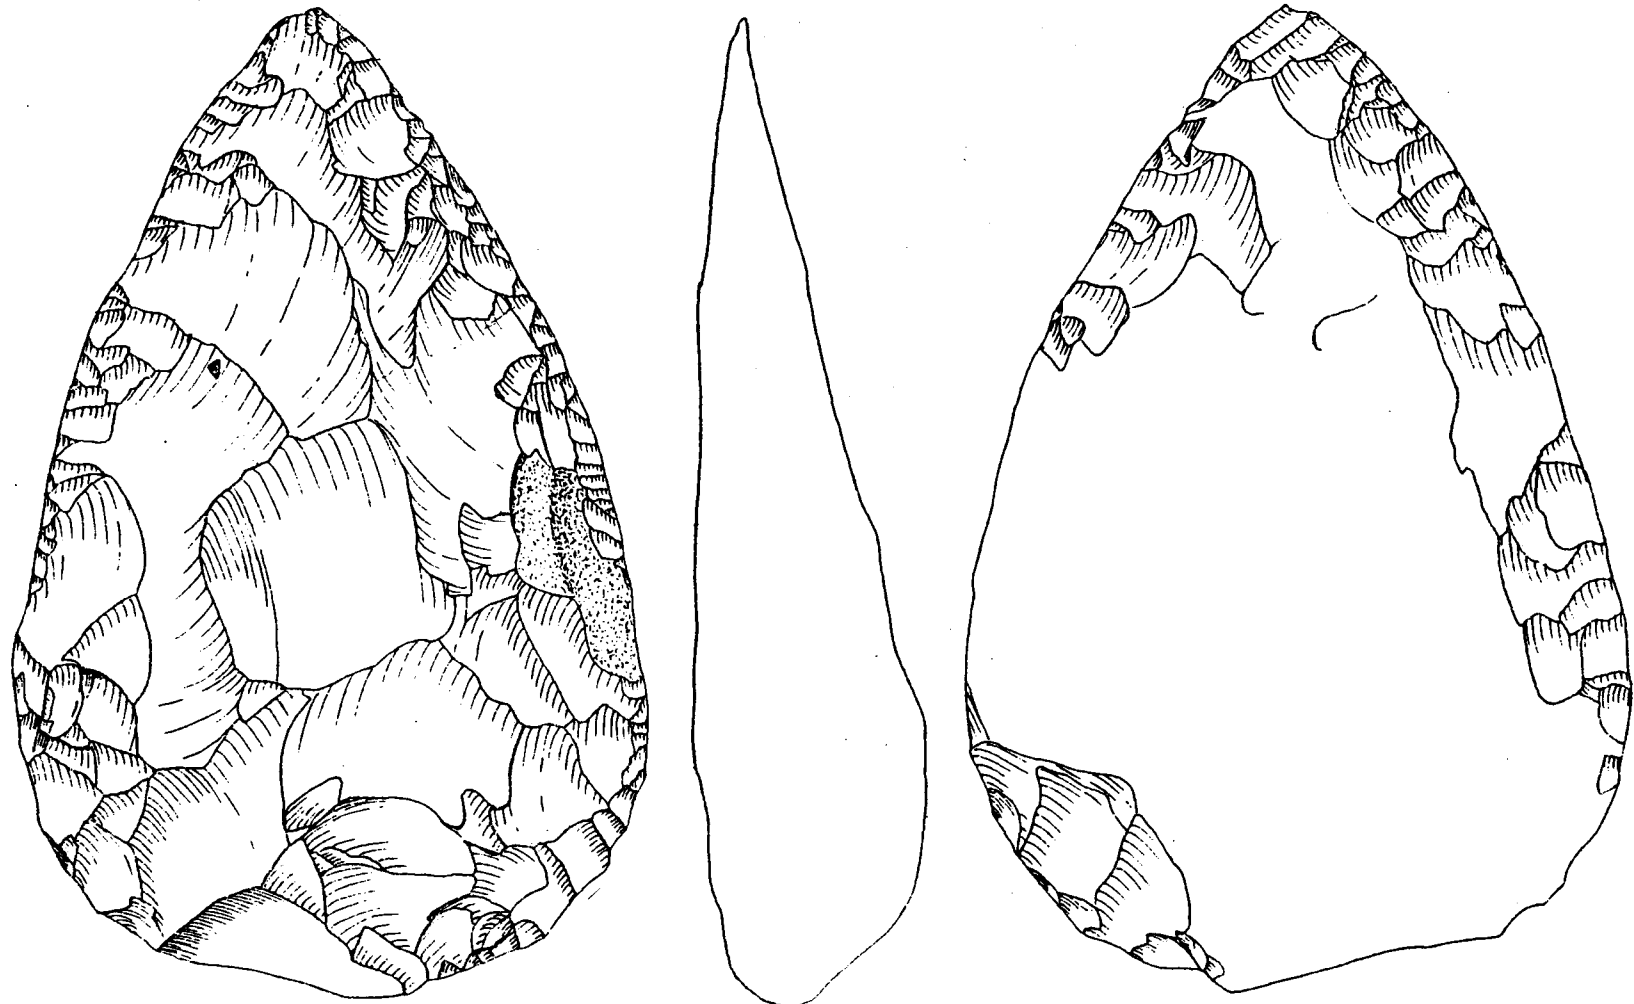

1

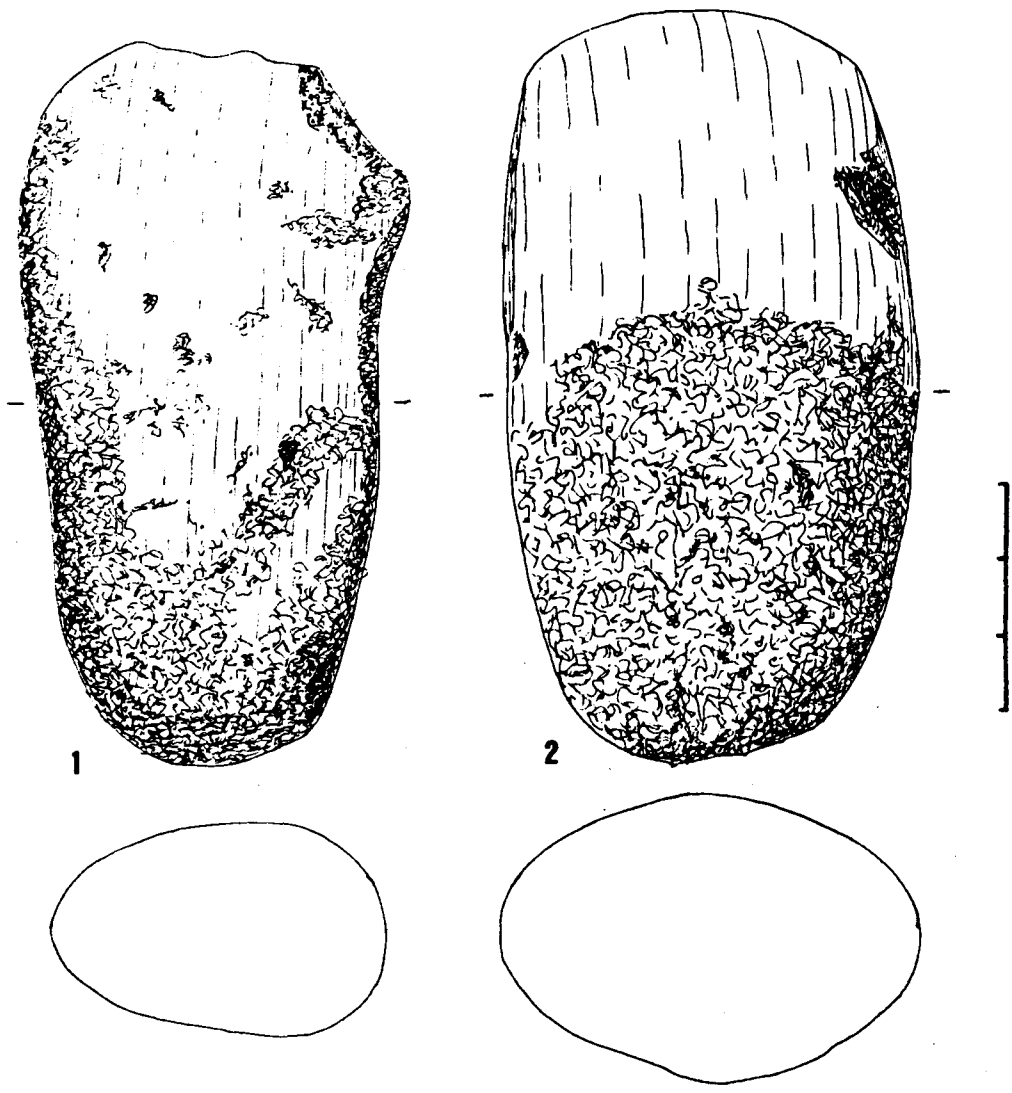

2

pl.2 - 1. Coupe géologique schématique (d'après P.Pahaut)  
 1. Houiller; 2. Hervien; 3. Nouvelles; 4. Silex;  
 5. Limon à silex; 6. Terrasses; 7. Limon homogène;  
 8. Niveau argileux.  
 2. Schéma stratigraphique au puits du charbonnage de Battice (d'après P.Pahaut).

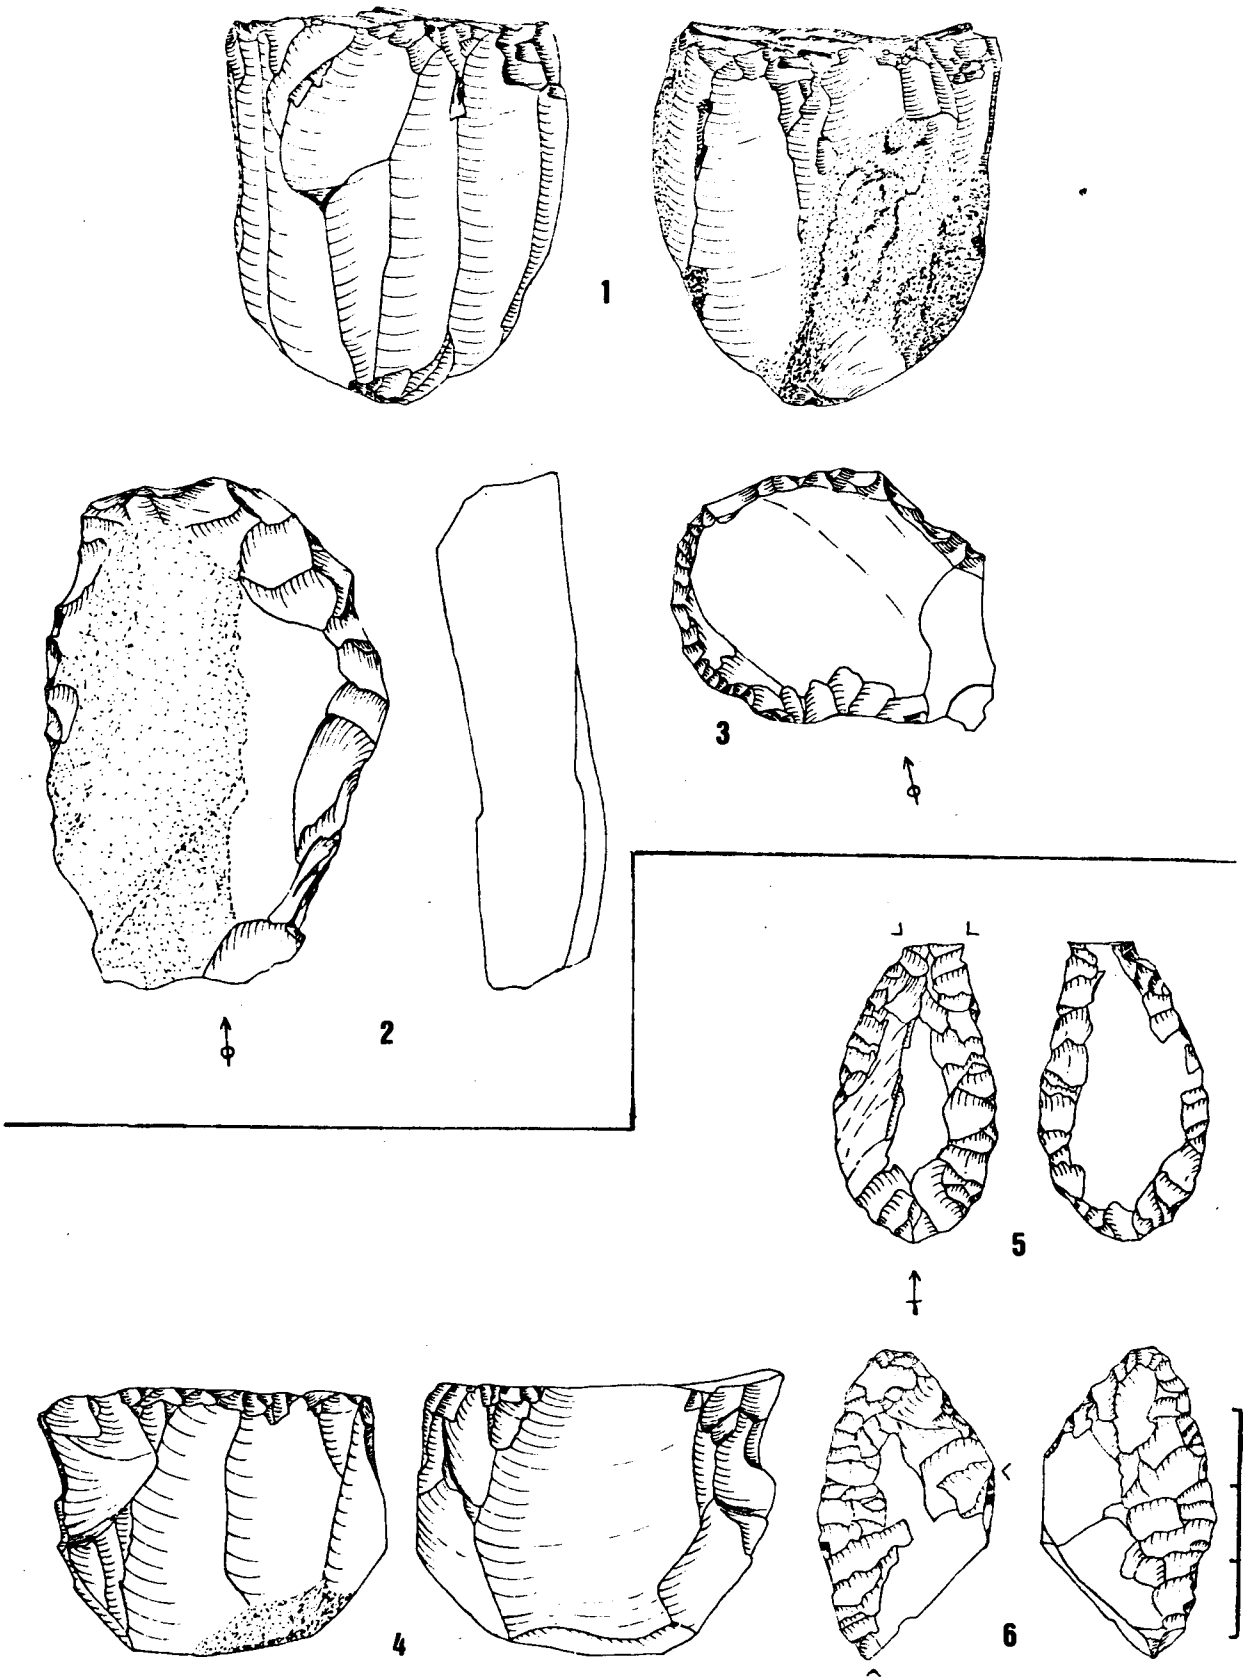

pl.3 - VISE - biface partiel.

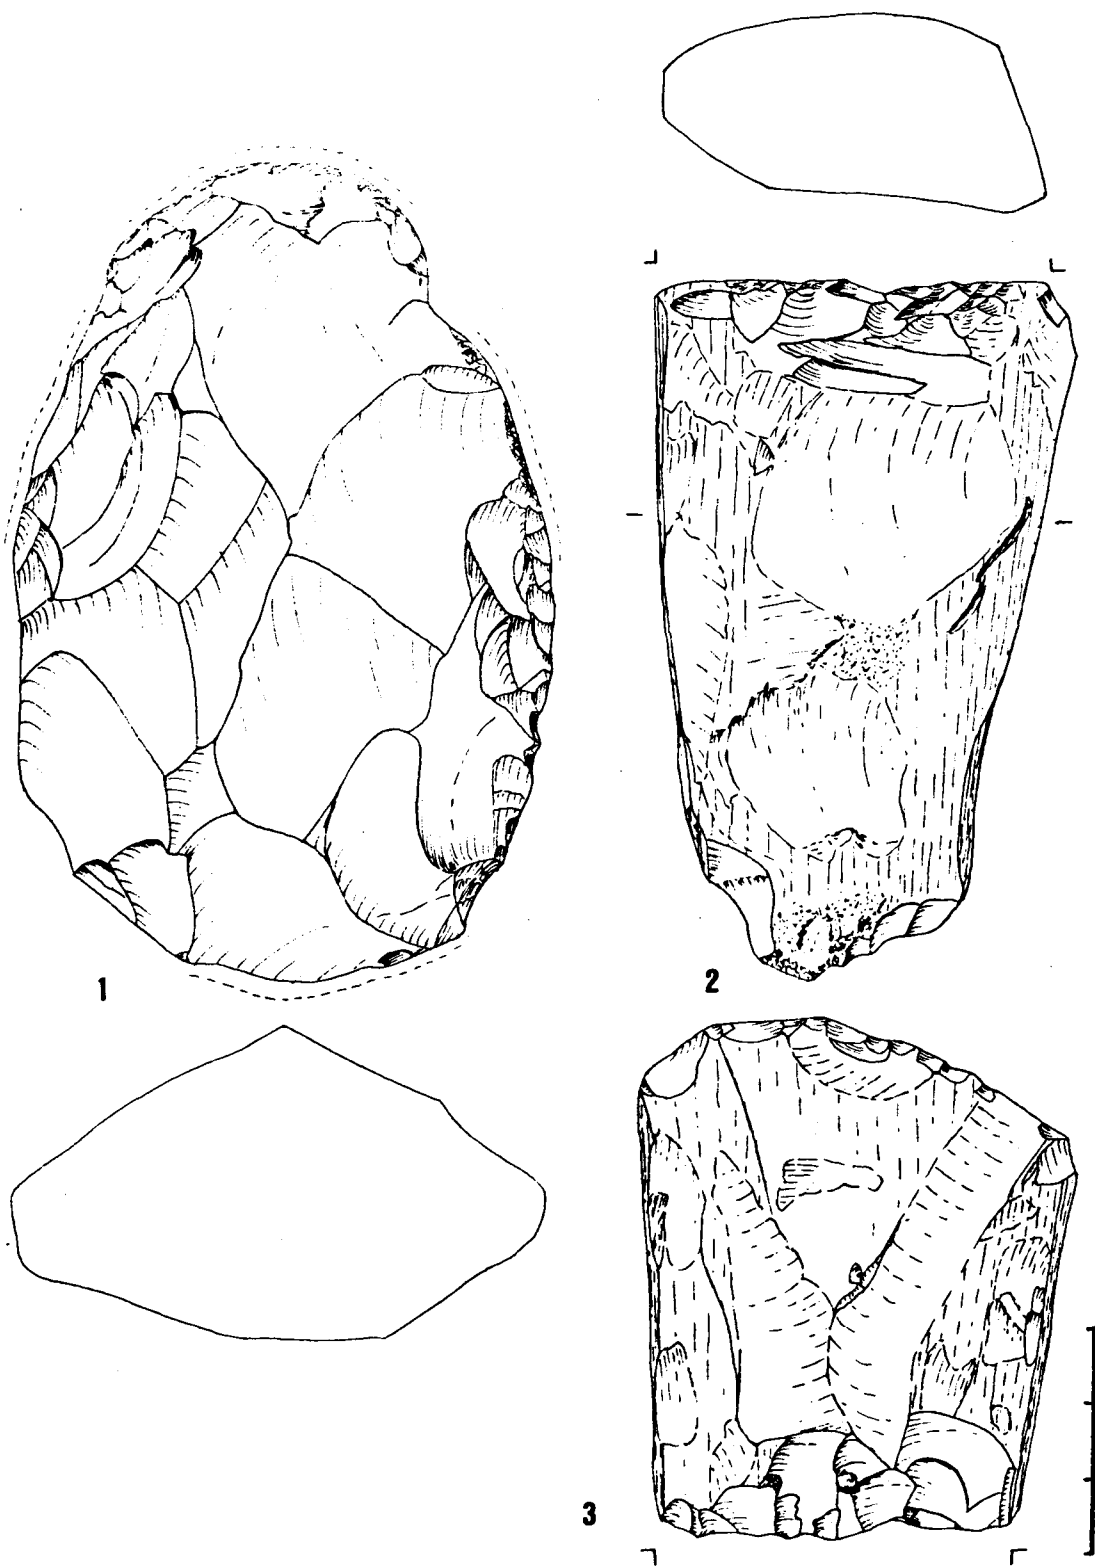

pl.4 - VISE - 1. nucléus; 2, 3. grattoirs.  
WARSAGE - 4. nucléus; 5, 6. pointes de flèche.

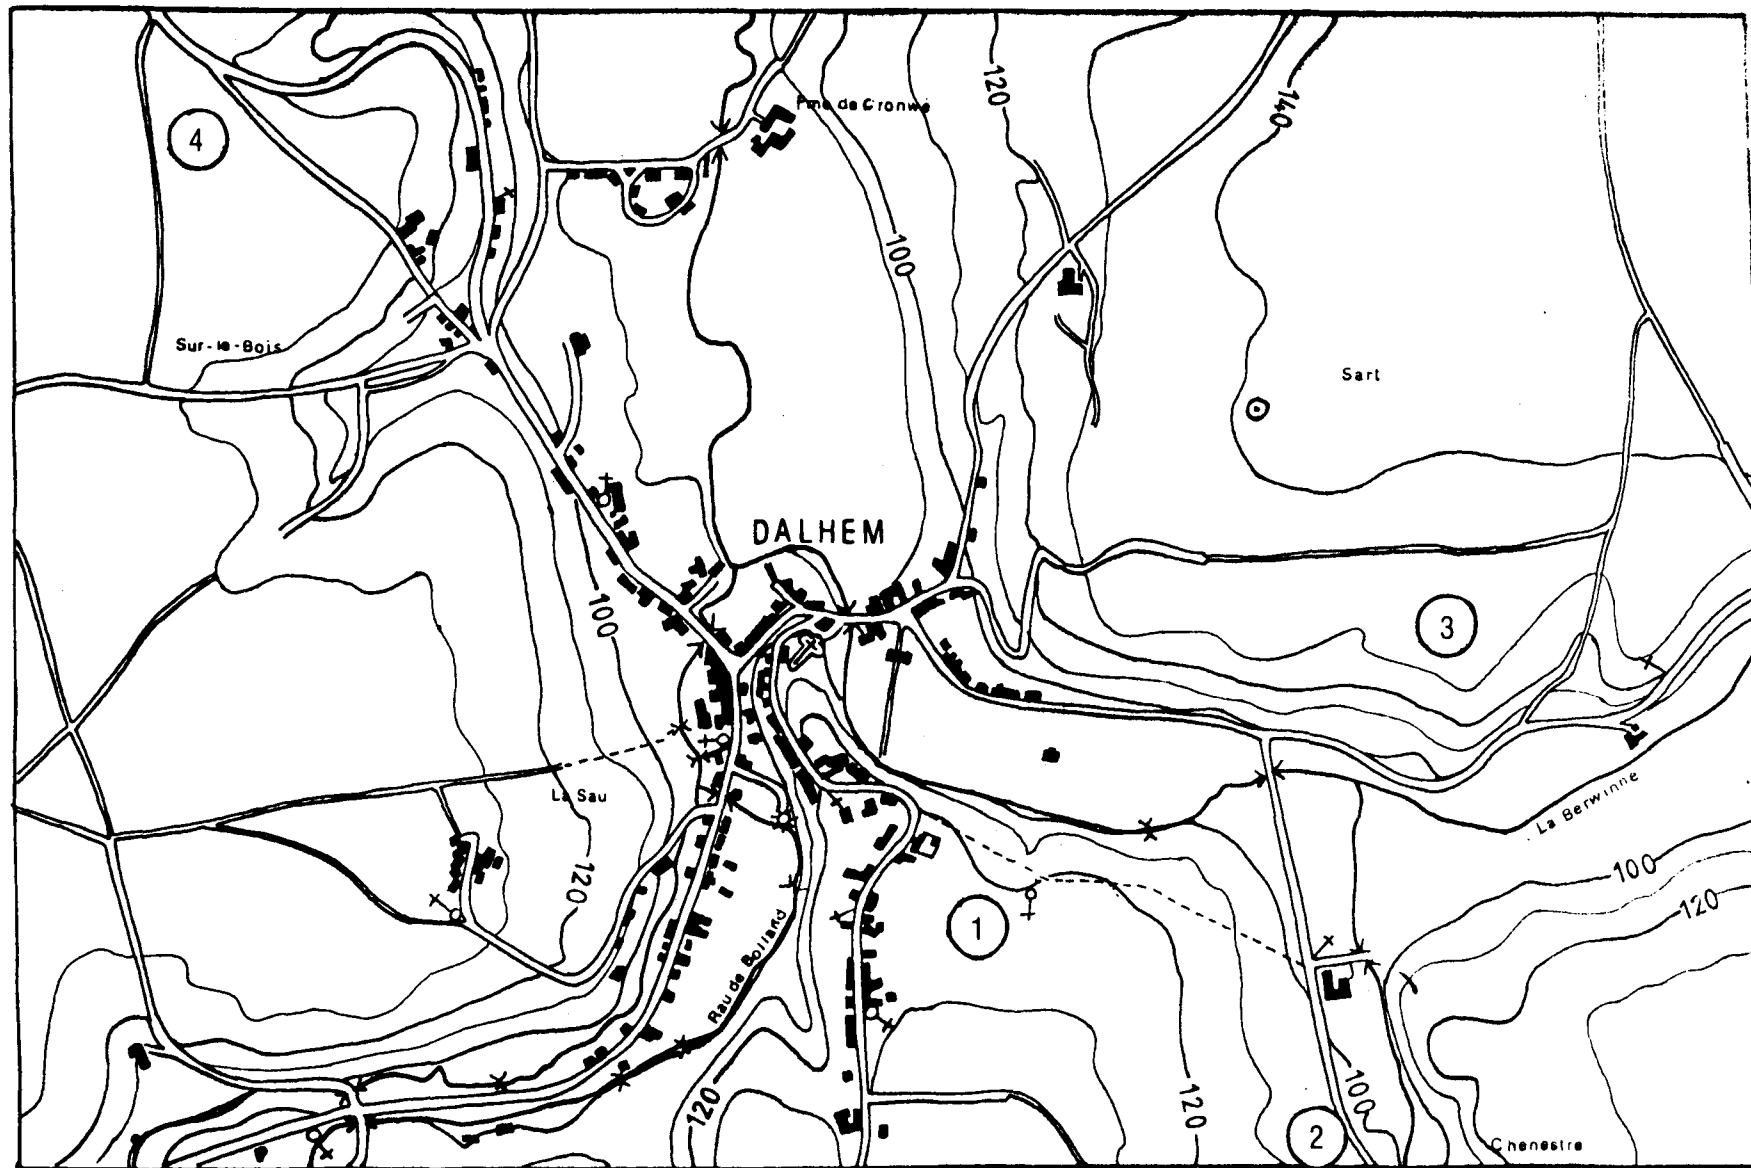

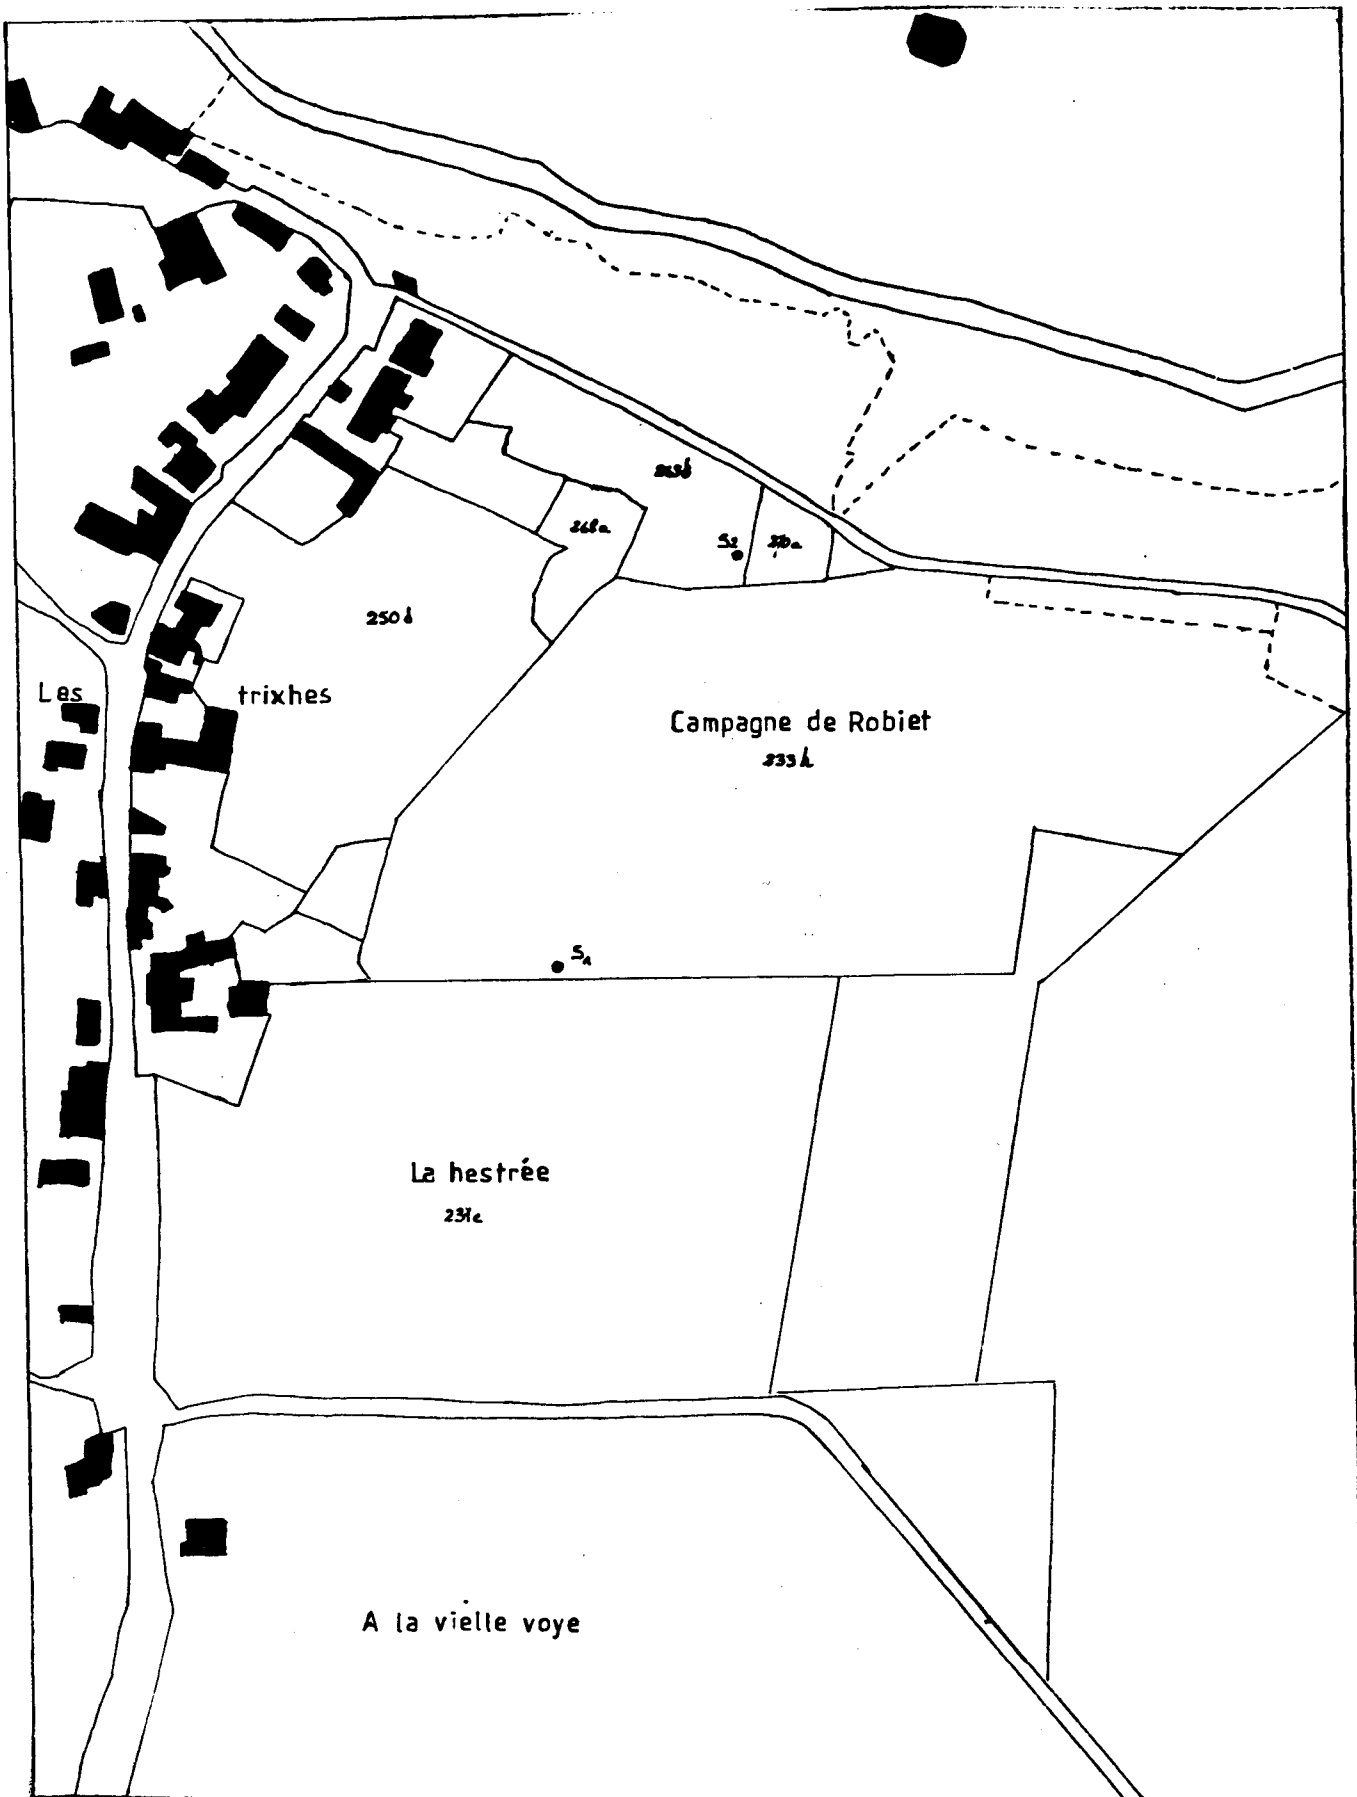

pl.5 - WARSAGE - haches en quartzite.

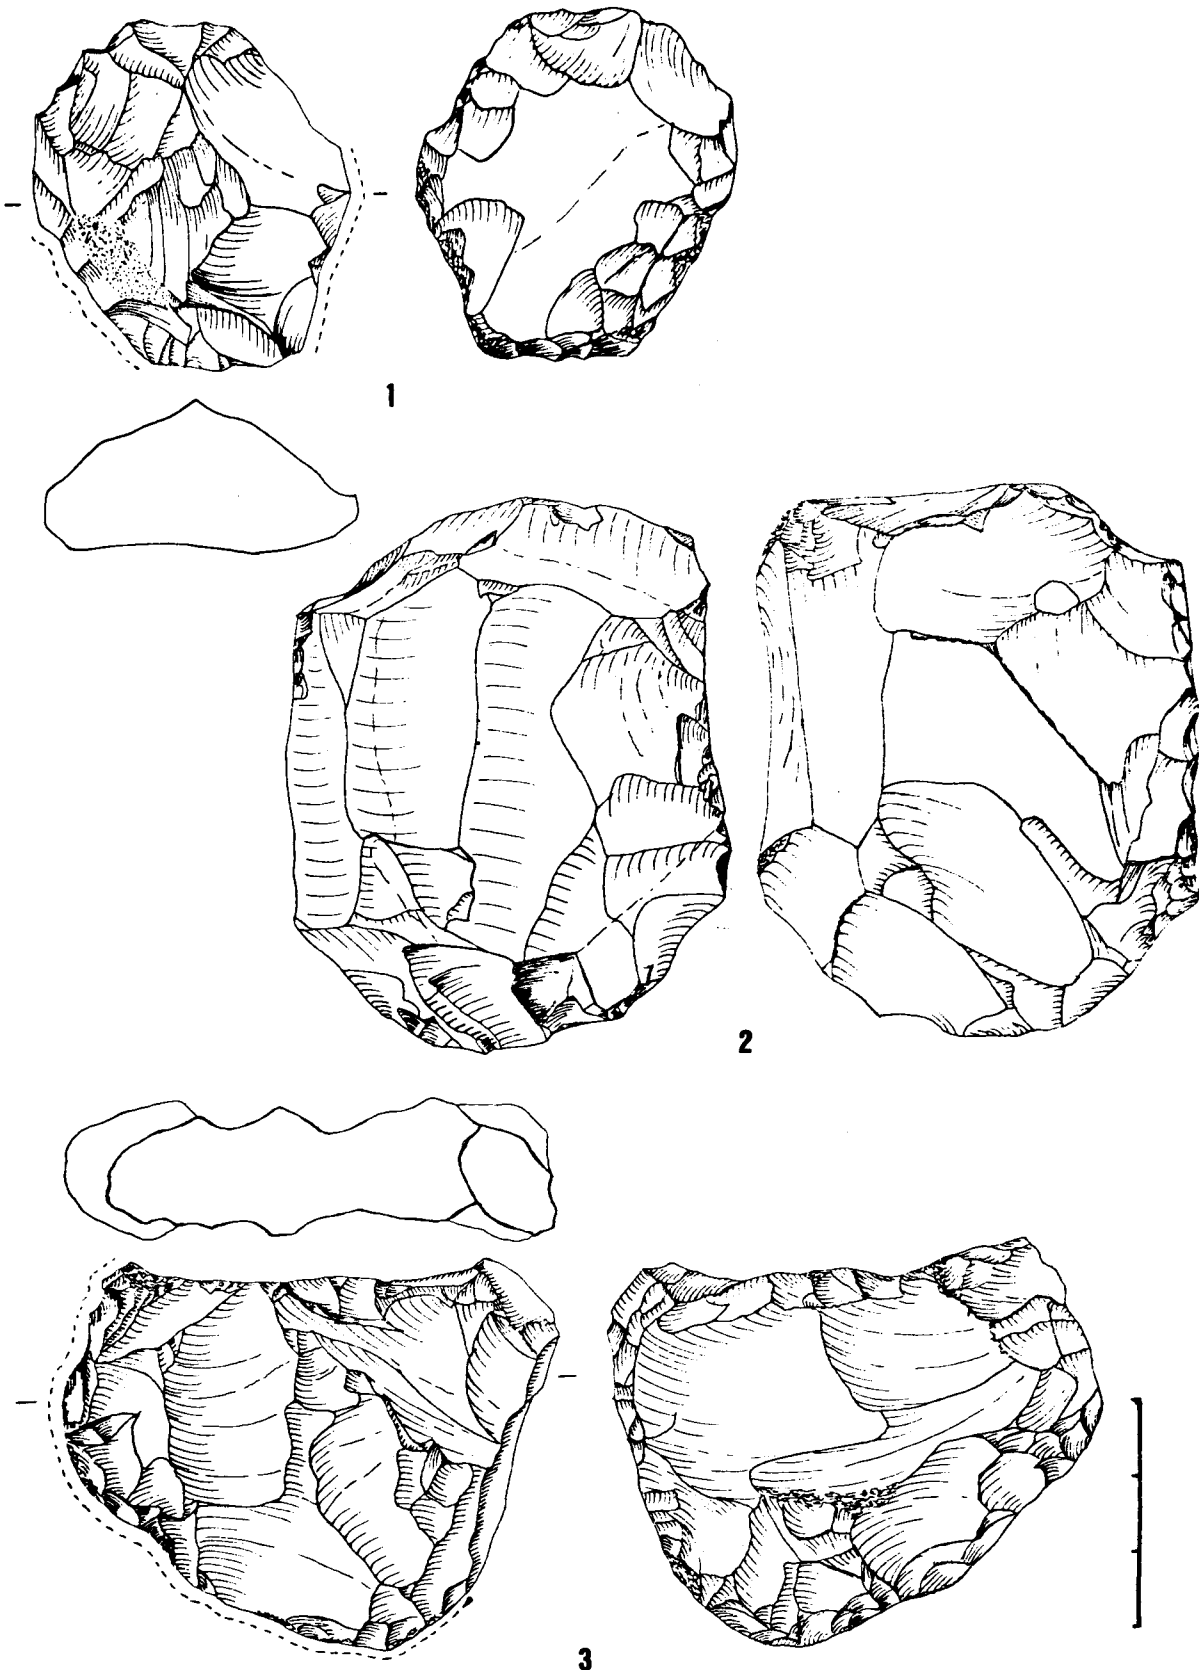

pl.6 - WARSAGE - 1. pièce indéterminée; 2. talon en quartzite;  
3. tranchant en silex.

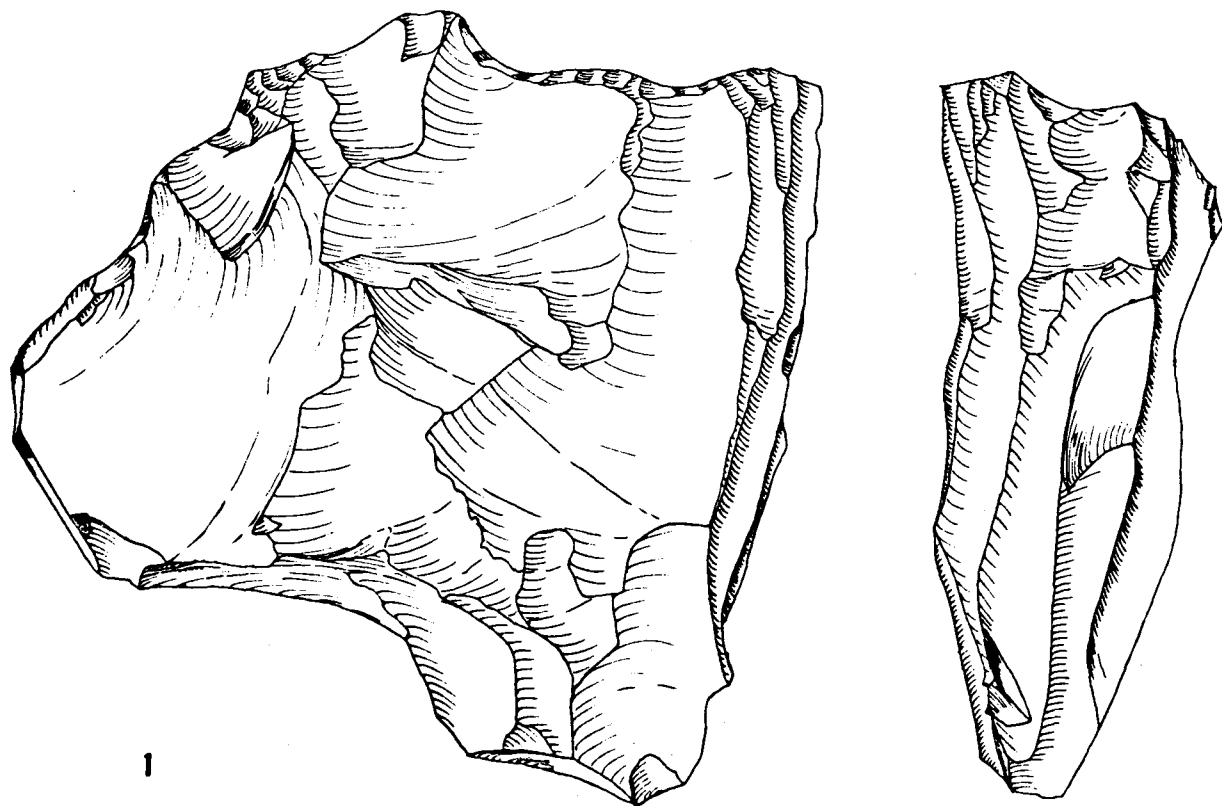

pl.7 - PAYS DE DALHEM - Localisation des gisements :  
 1. Campagne de Robiet; 2. Chenestre;  
 3. Al Grasse Poye; 4. Sur-le-Bois.

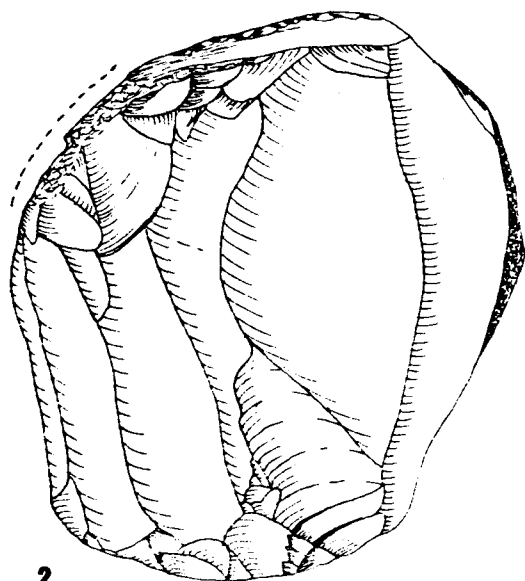

pl.8 - DALHEM - Campagne de Robiet et localisation des sondages.

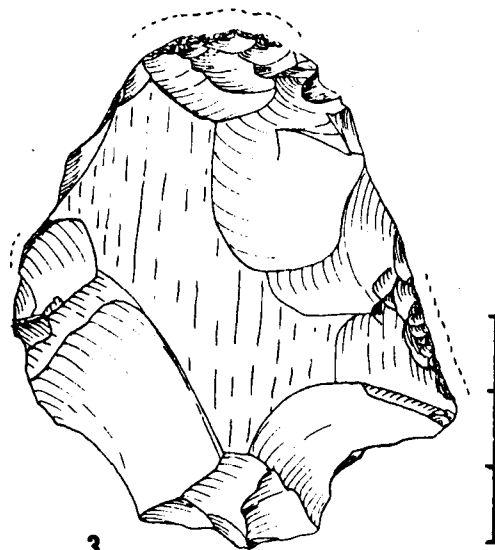

pl.9 - DALHEM - nucléus.

1

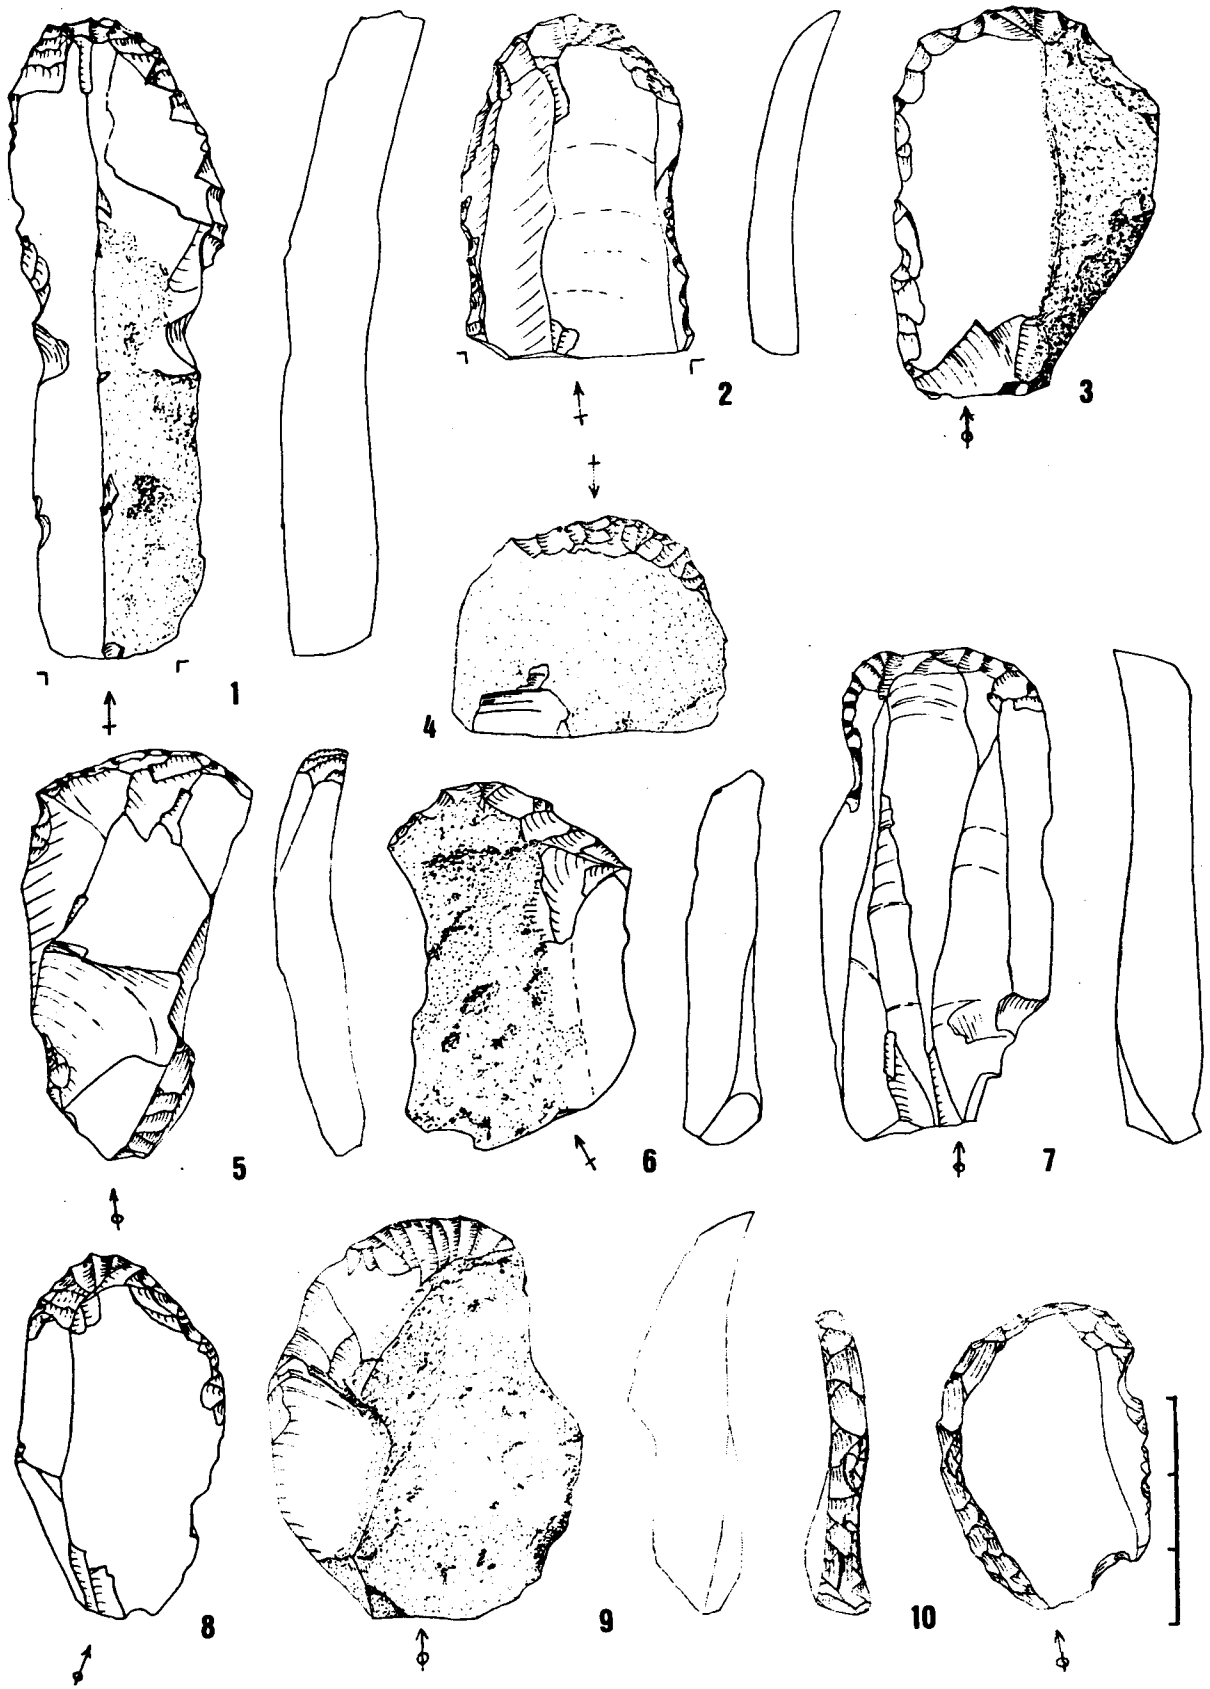

2

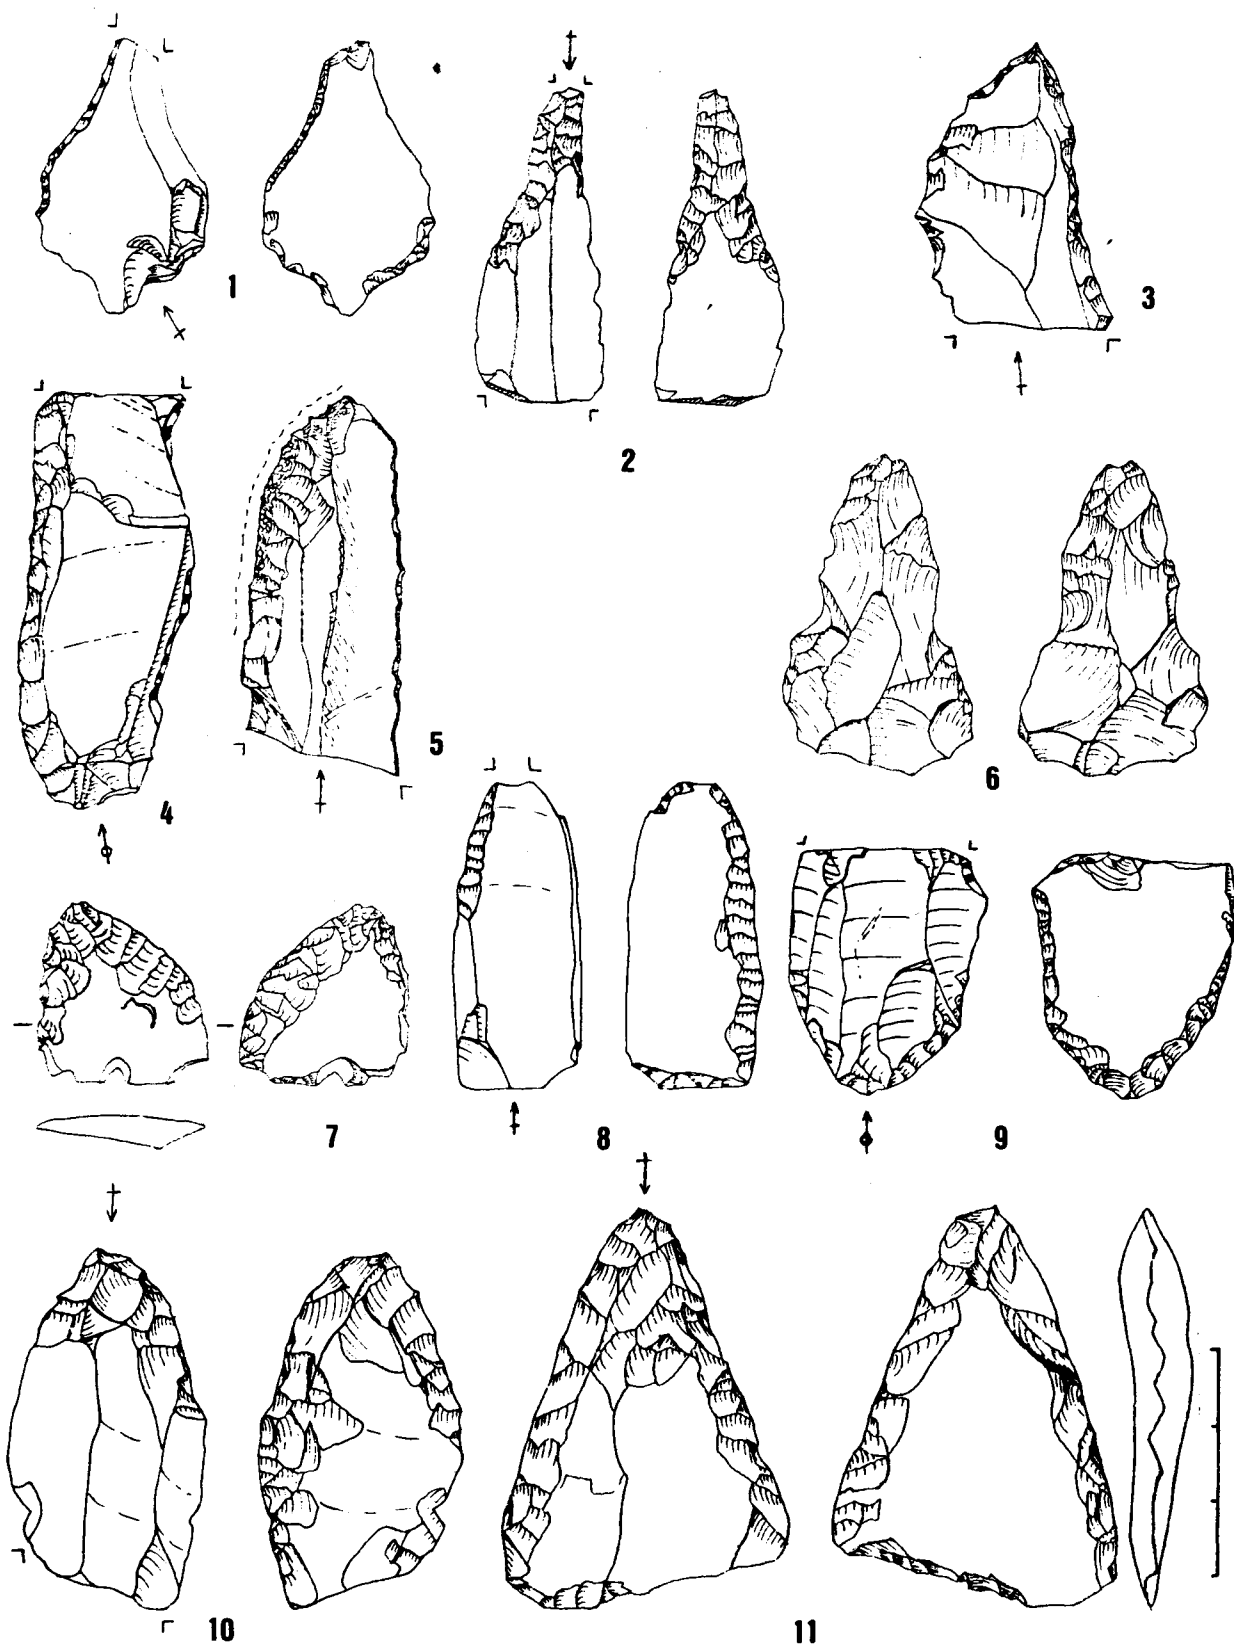

3

pl.10 - DALHEM - 1, 2. nucléus; 3. percuteur.

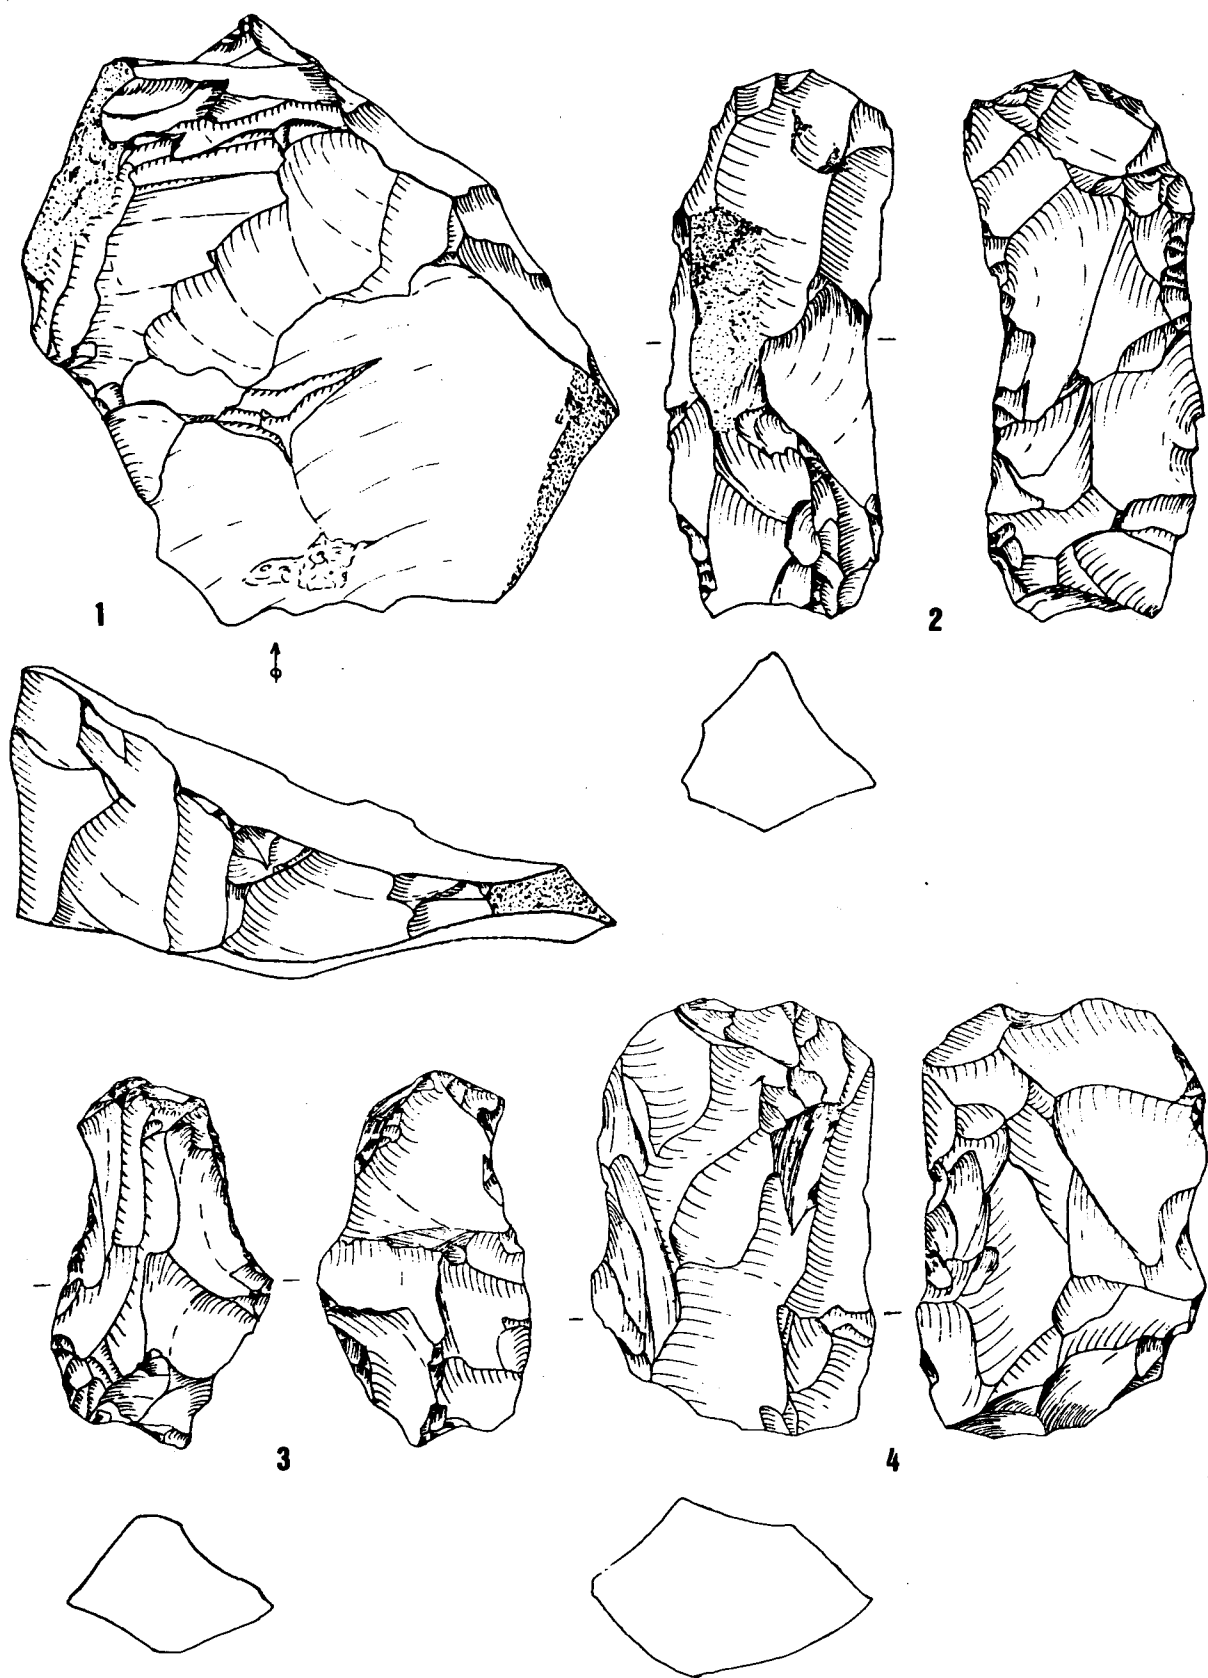

pl.11 - DALHEM - grattoirs.

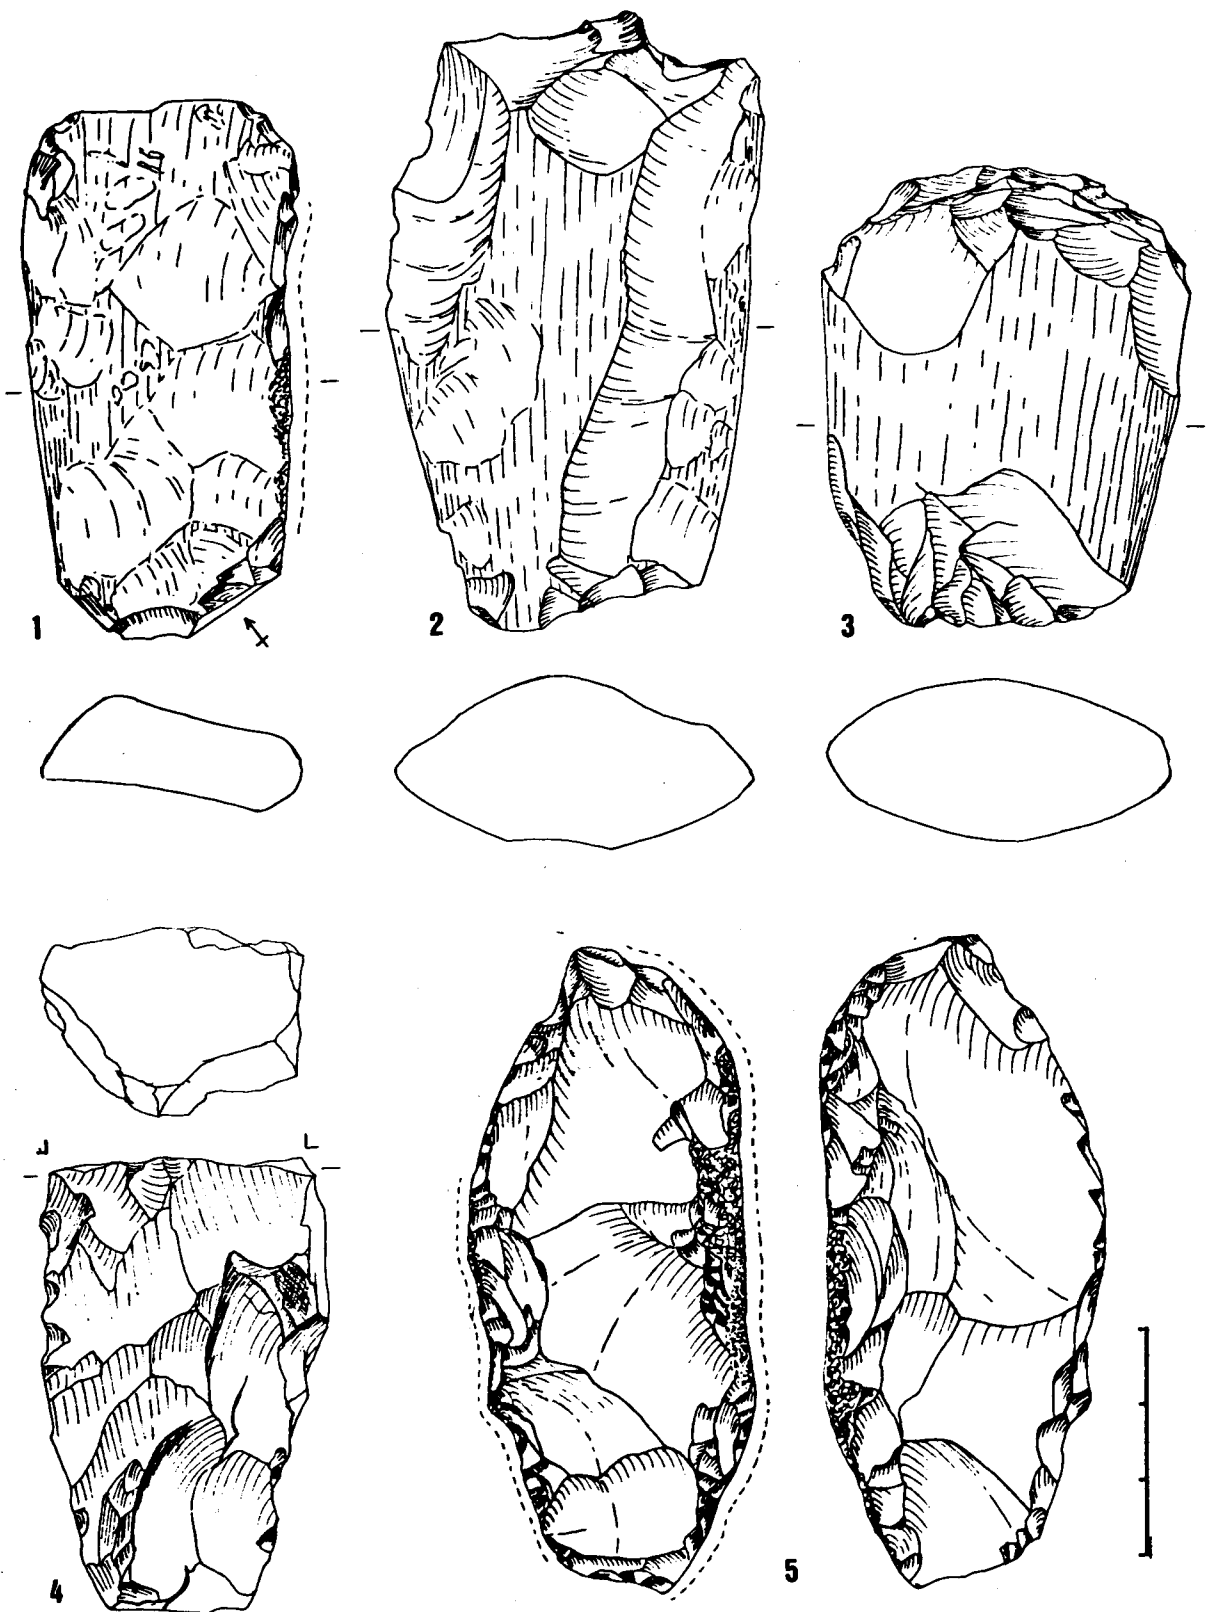

pl.12 - DALHEM - 1, 2. perçoirs; 3, 6. pointes; 4, 5. lames retouchées; 7, 8, 10, 11. armatures; 9. pièce à retouches bifaciales.

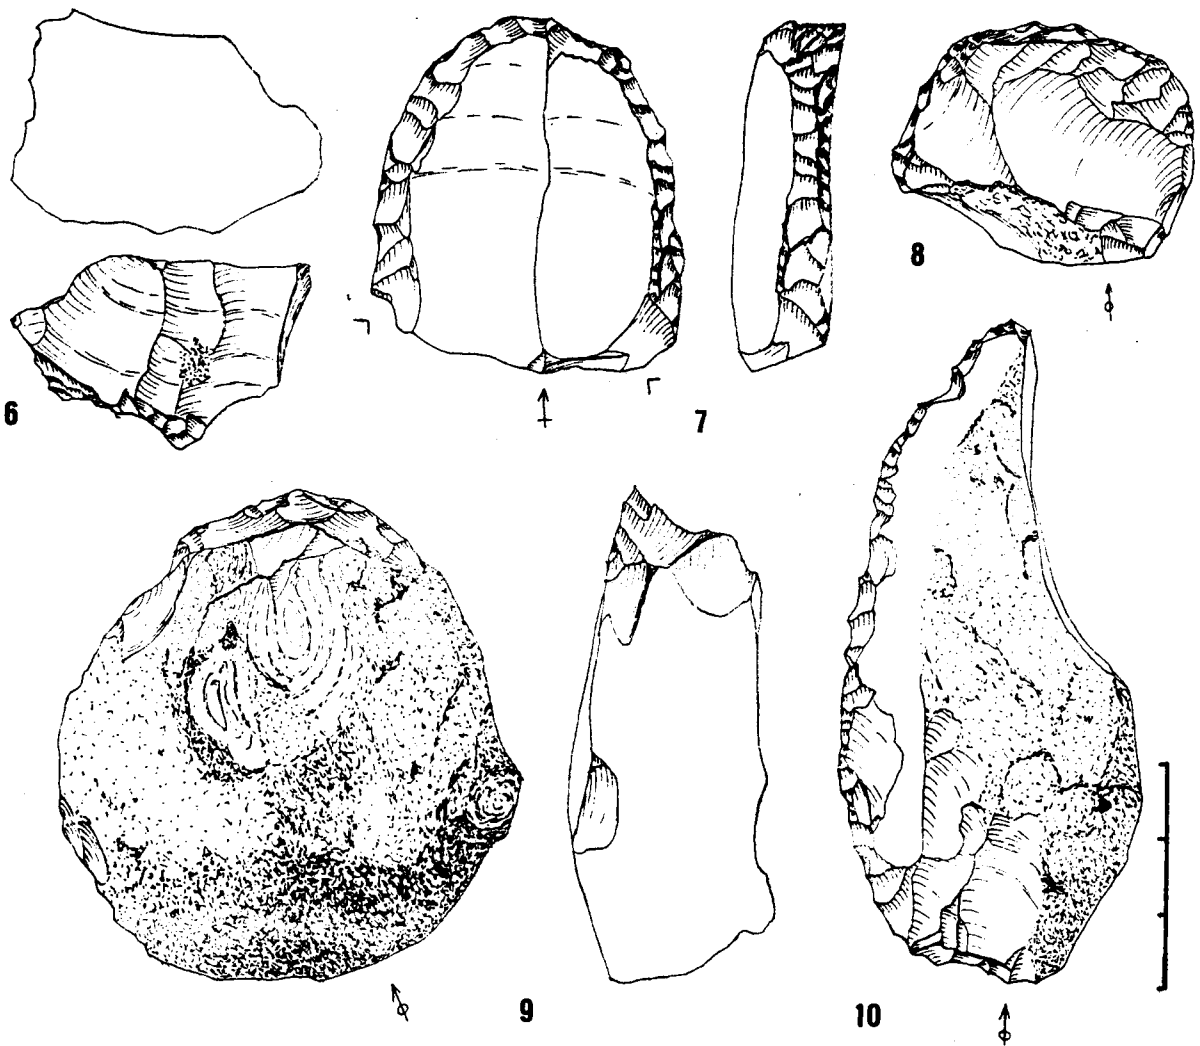

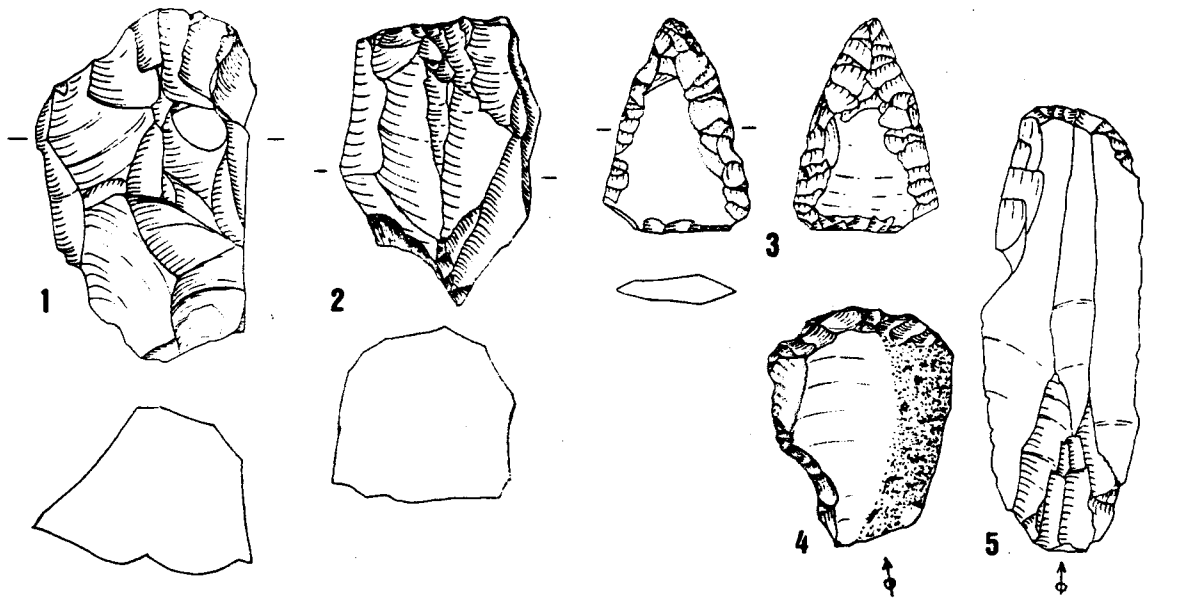

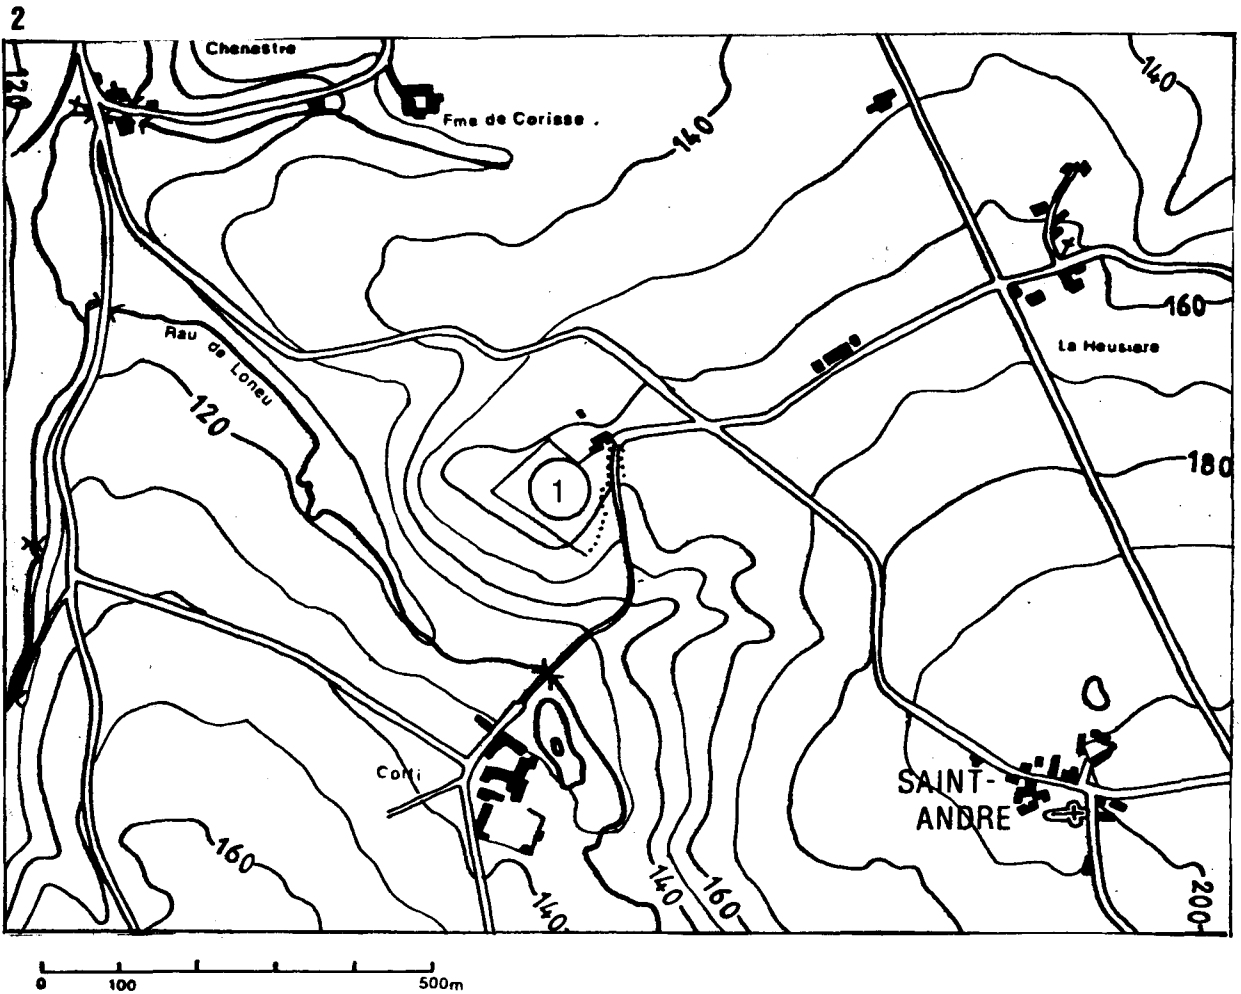

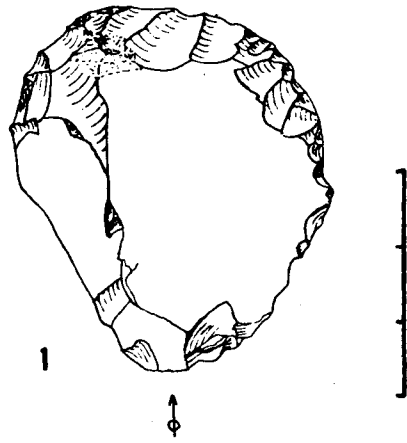

pl.13 - DALHEM - 1. denticulé; 2 à 4. pièces sculptées.

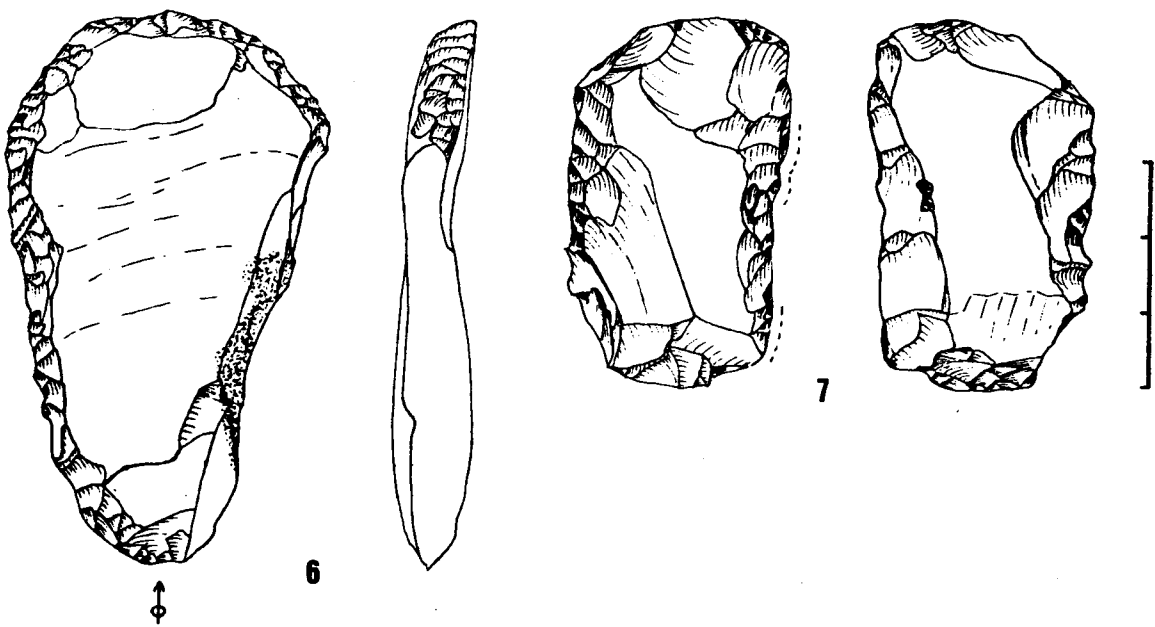

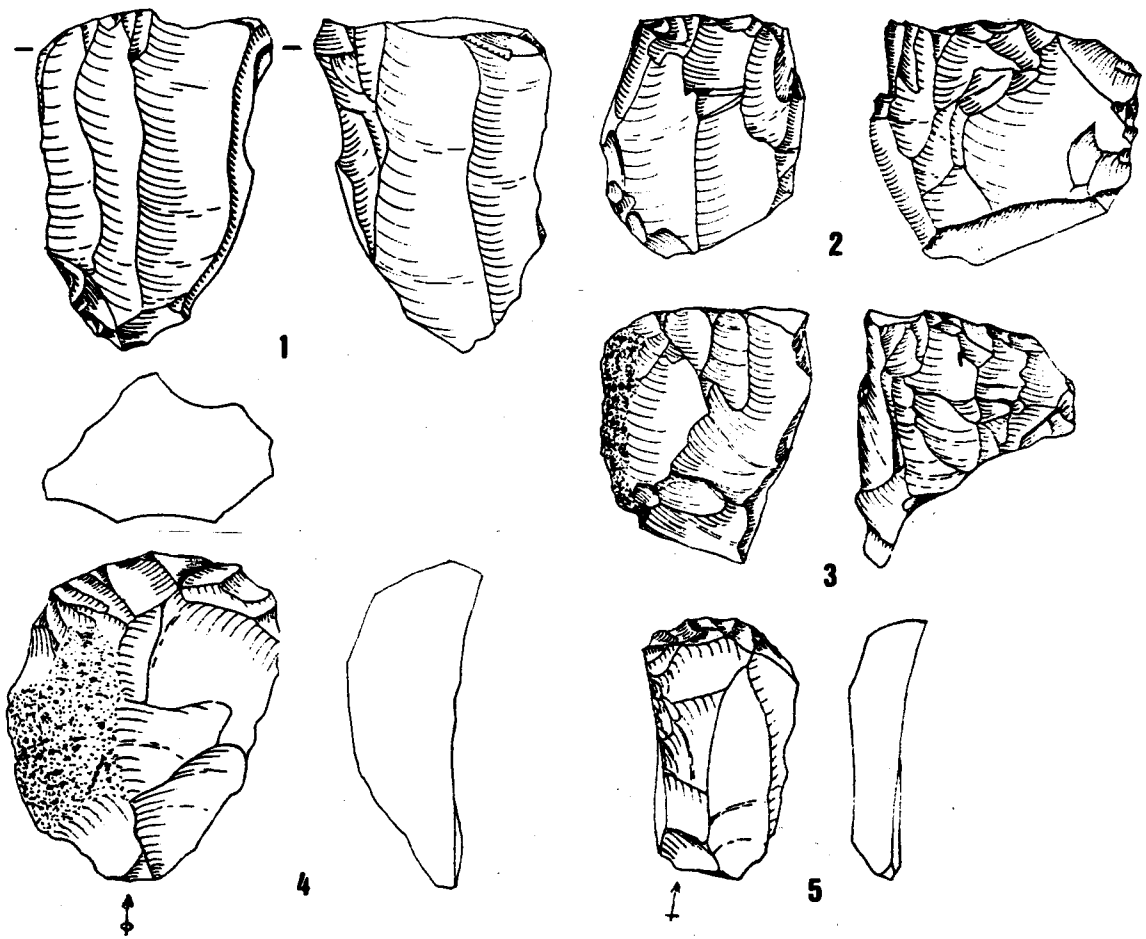

pl.14 - DALHEM - 1 à 3. haches et hachette polies; 4. talon de pièce taillée; 5. retouchoir.

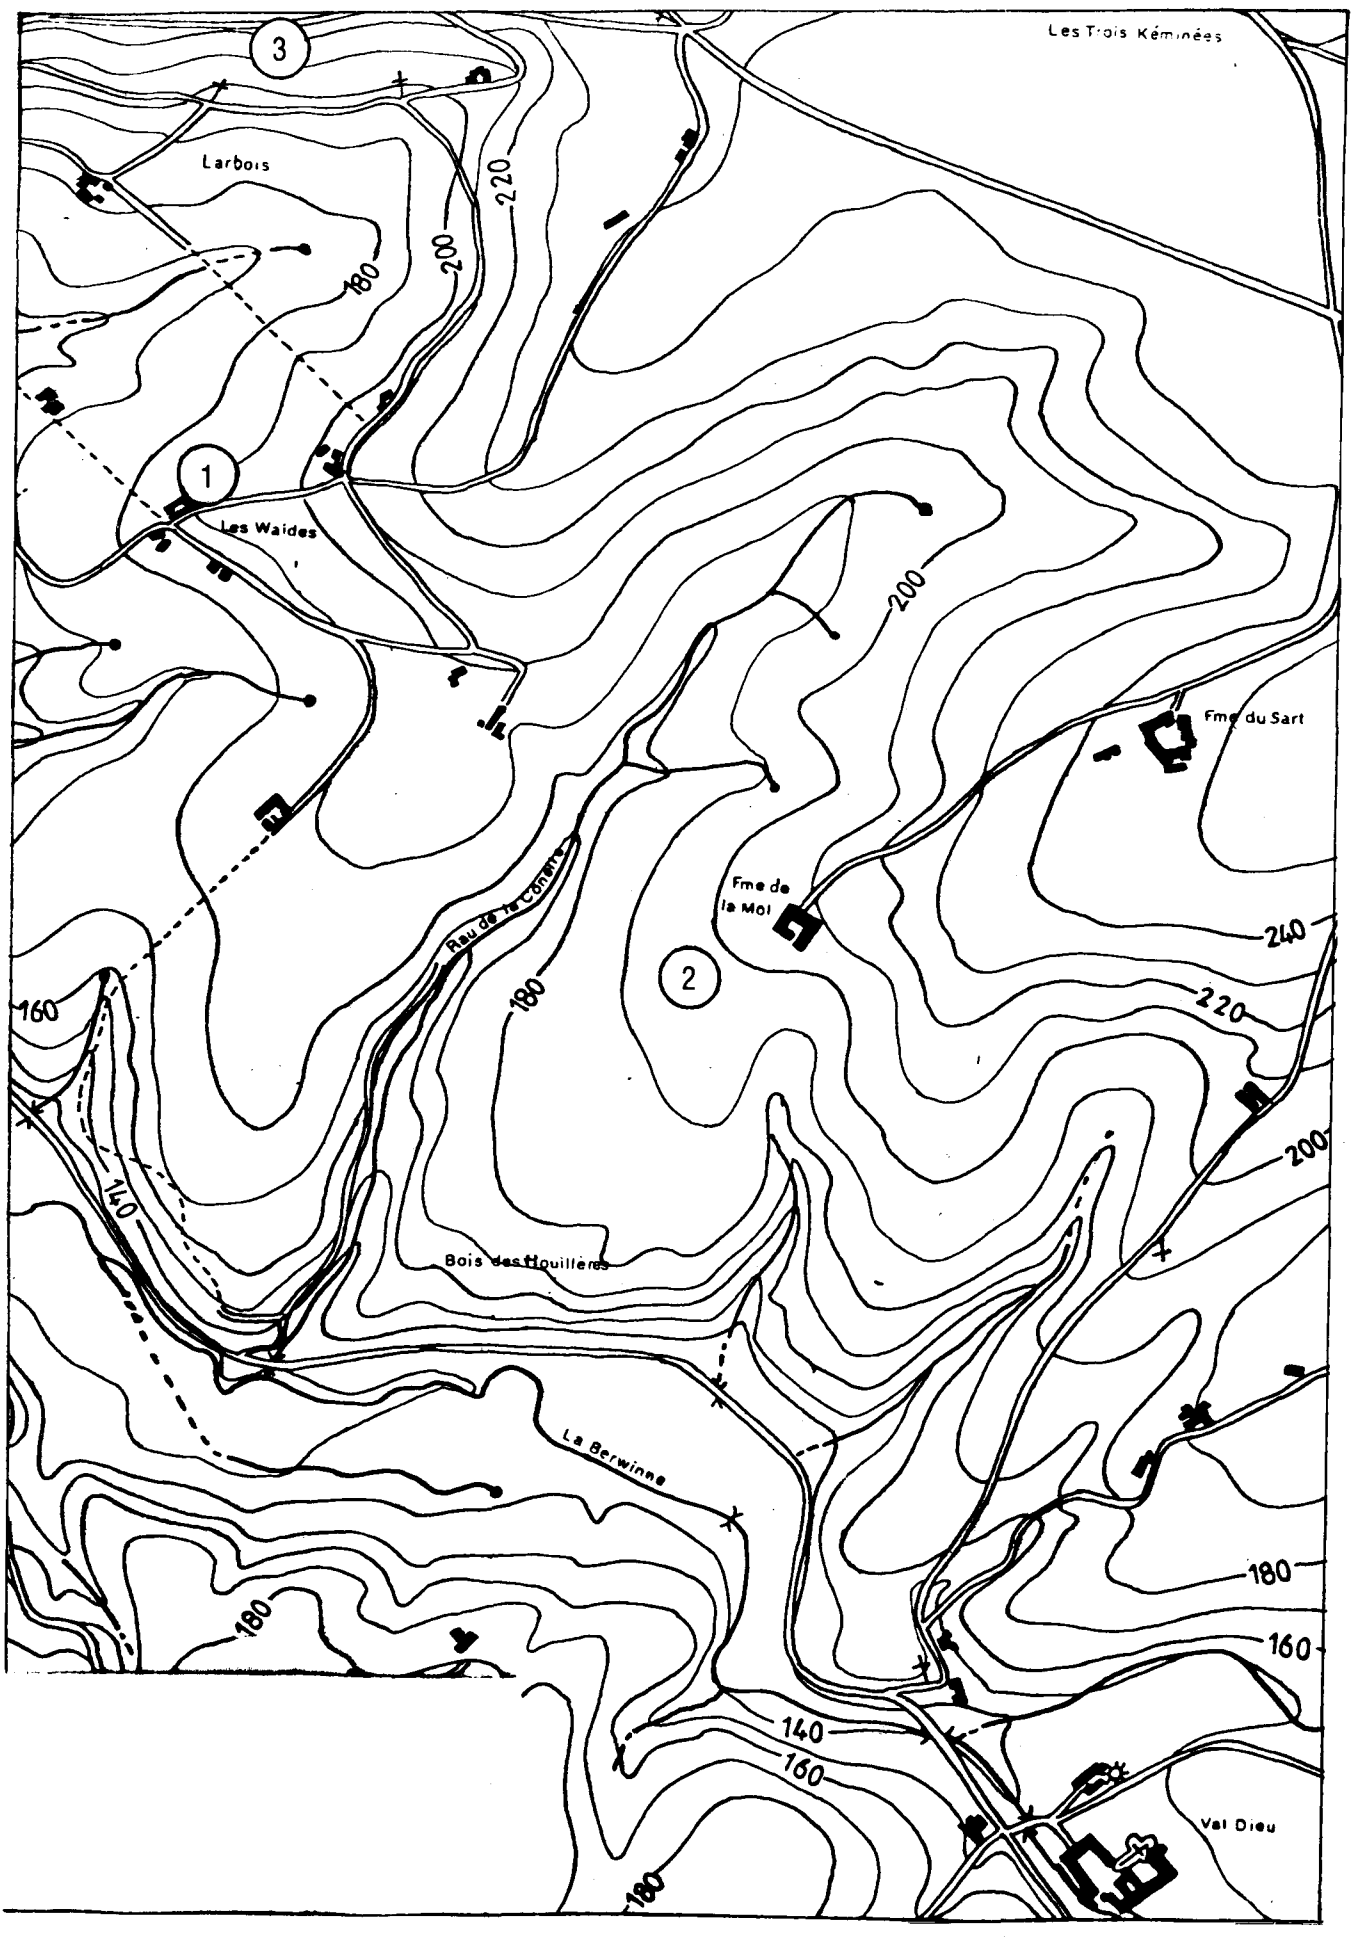

pl.15 - DALHEM - 1 à 5. gisement d'Al Grasse Poye; 6 à 10. gisement de Sur-le-Bois.

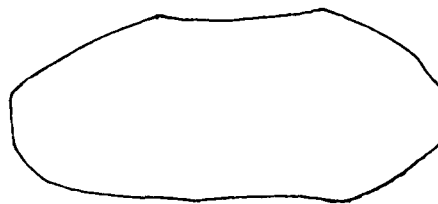

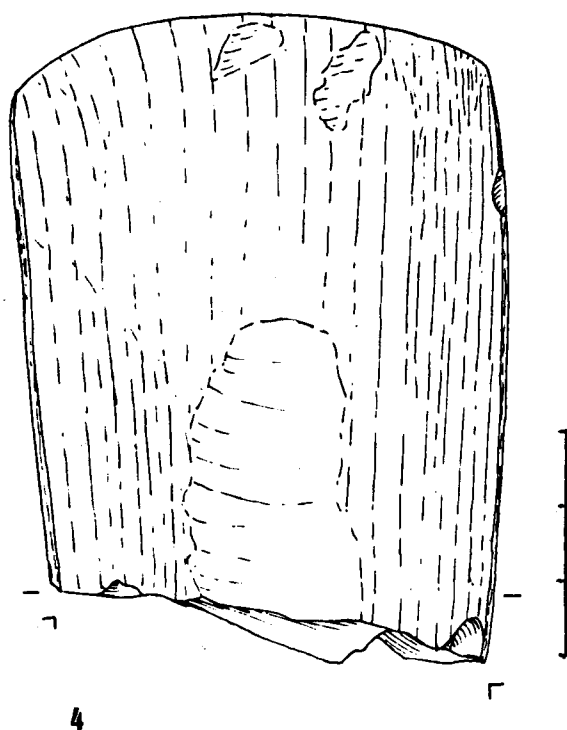

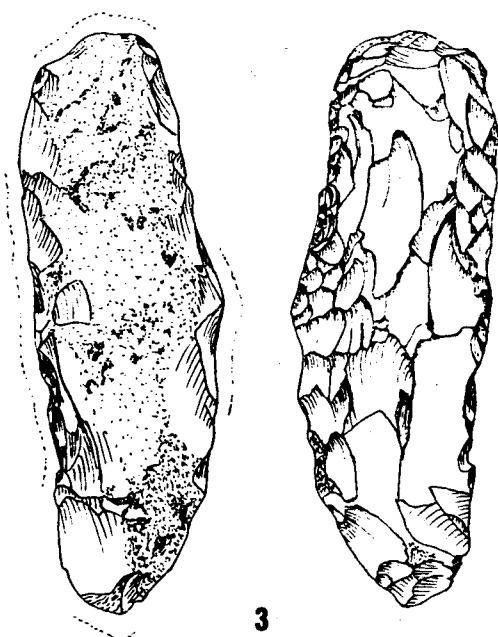

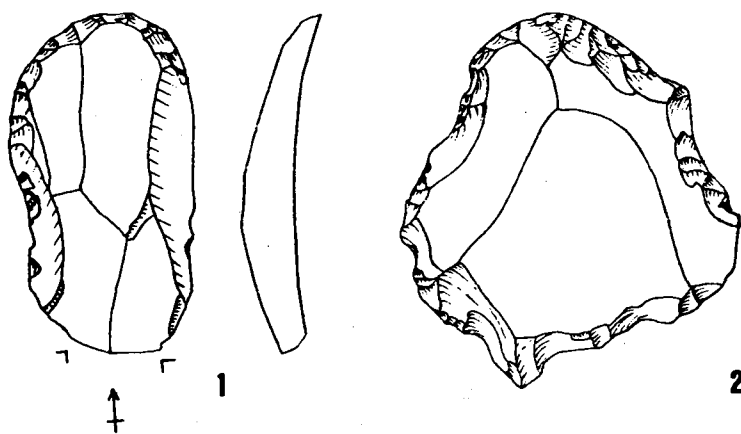

pl.16 - SAINT-ANDRE - 1. Chenestre; 2. localisation du gisement  
Près de Corti.

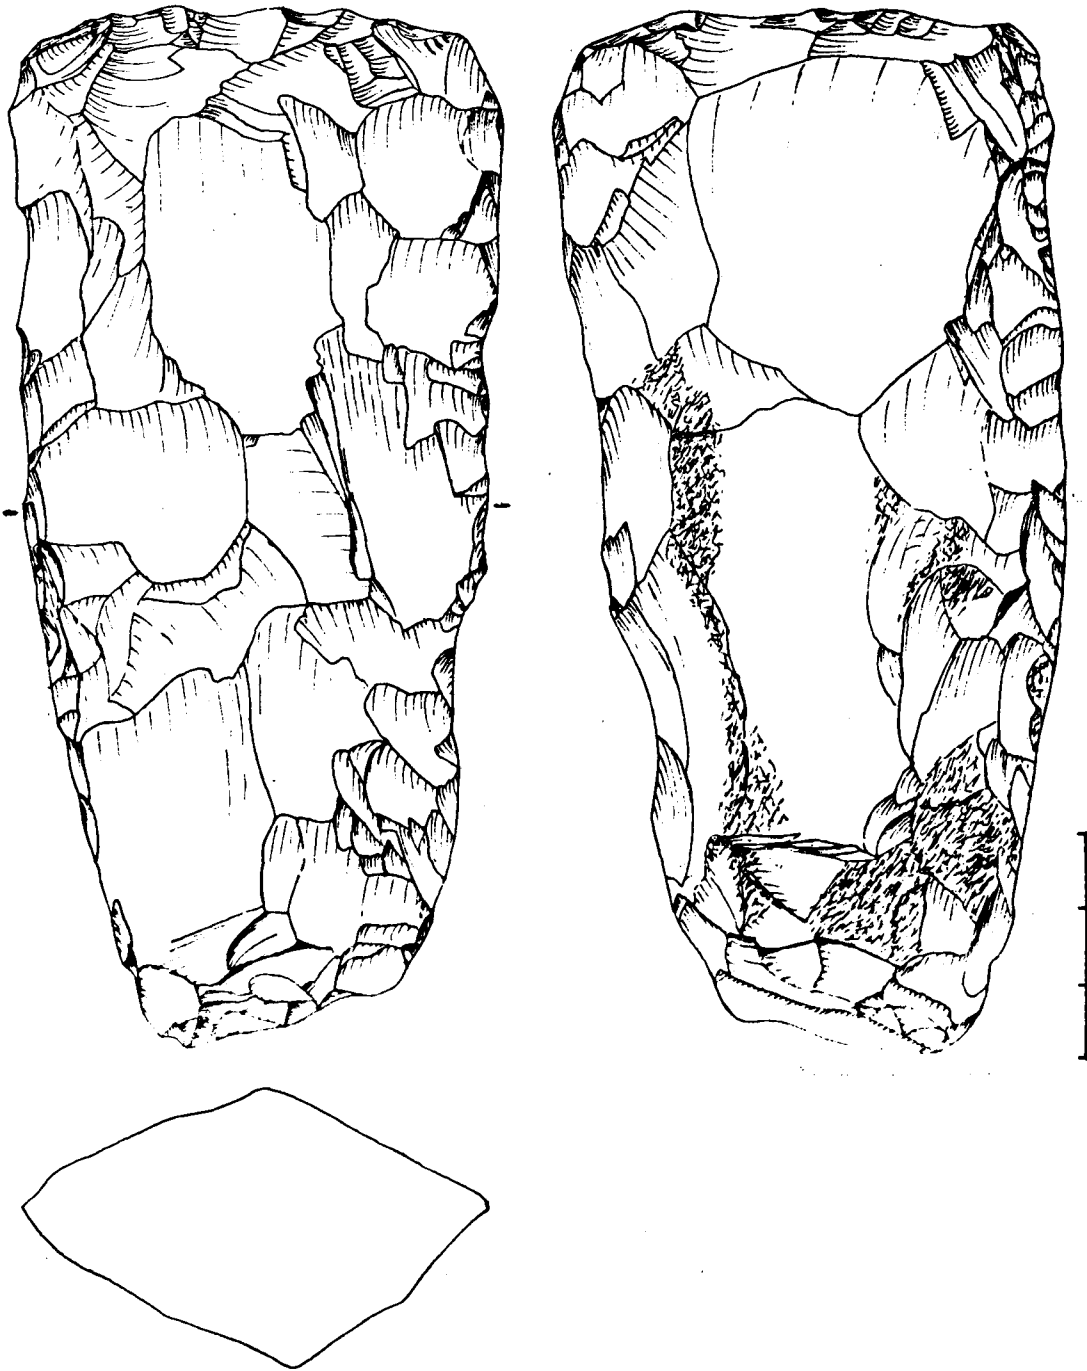

pl.17 - SAINT-ANDRE - Près de Corti (1 à 5); BOLLAND (6, 7).

pl.18 - localisation des gisements : 1. ferme des Waides;  
 2. ferme de la Mol; Aubin-Neufchâteau (?).

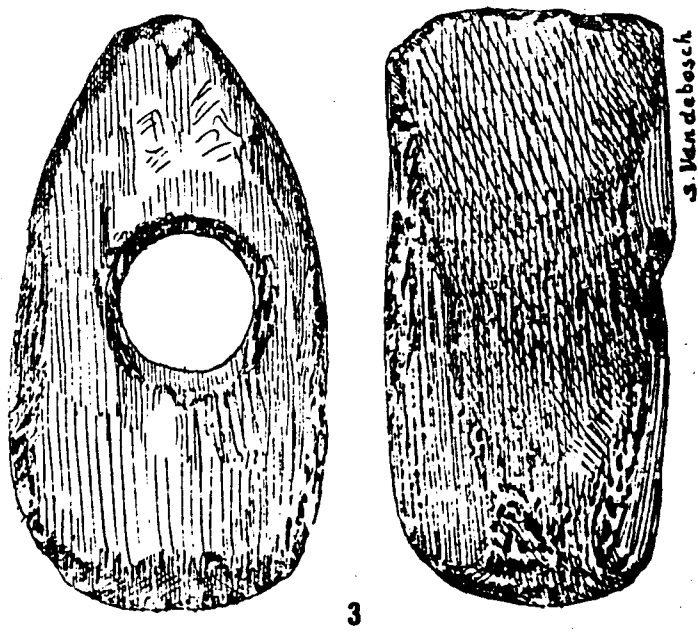

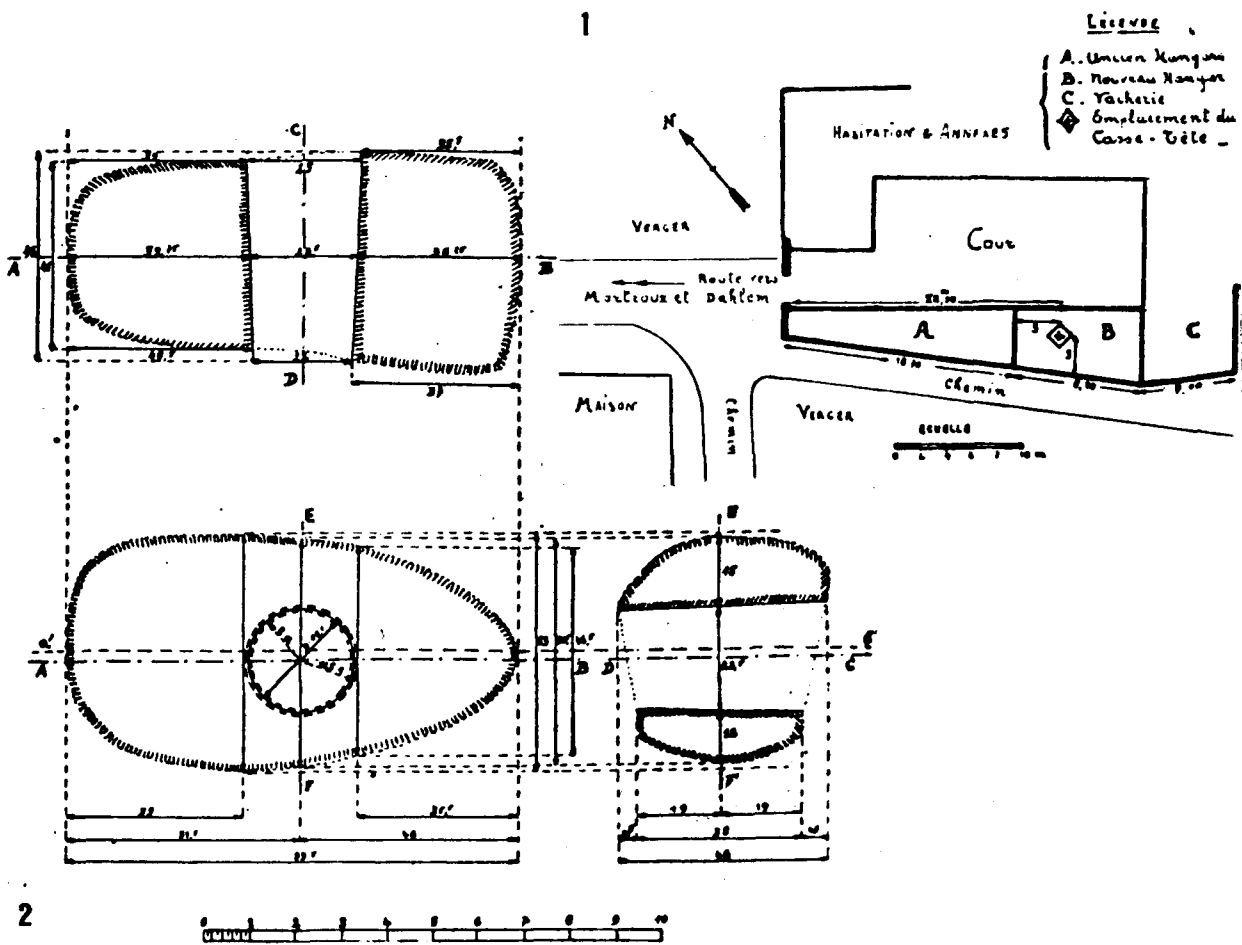

pl.19 - AUBIN - 1, 2. grattoirs; 3. retouchoirs; 4. tranchant de hache polie.

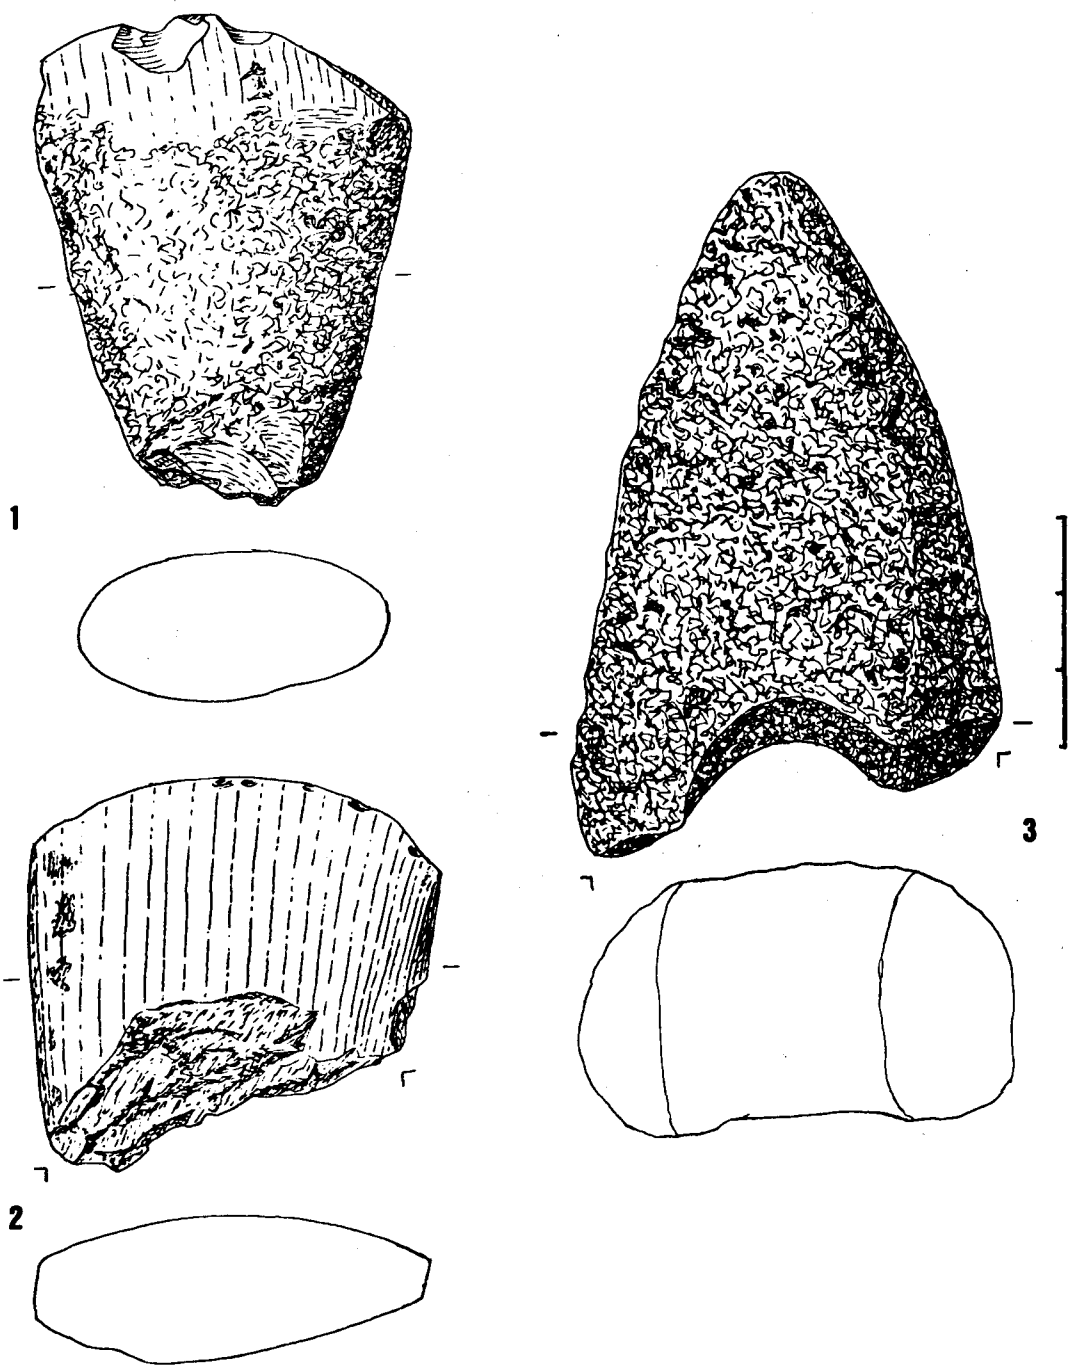

pl.20 - AUBIN - hache taillée.

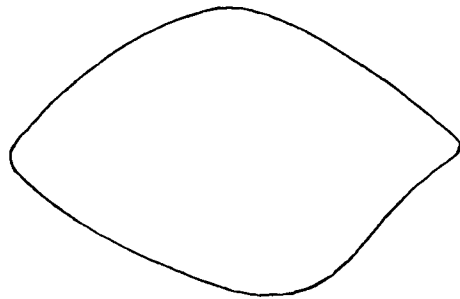

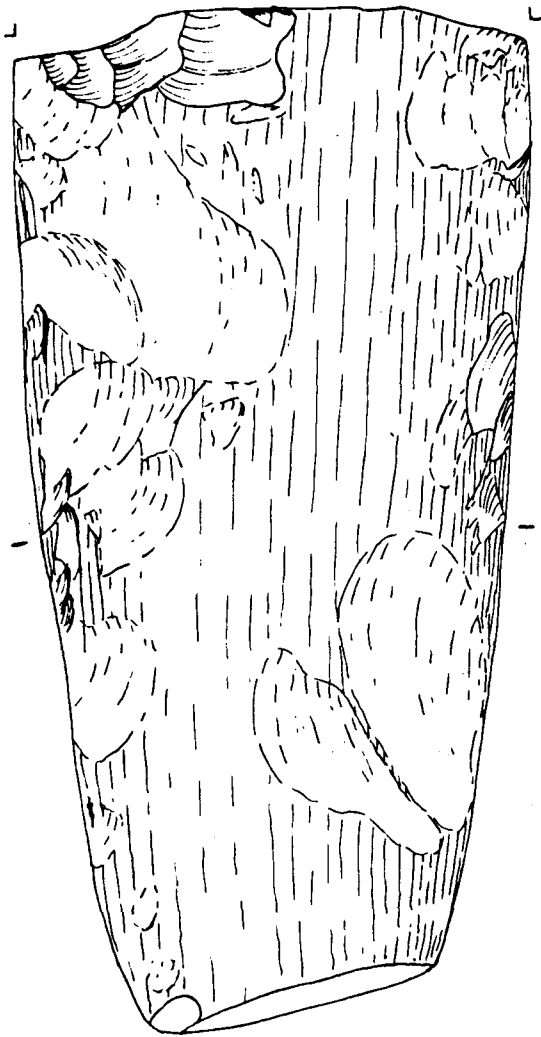

pl.21 - Ferme des Waides - "coin" perforé.

pl.22 - CHARNEUX - 1. hachette en chert; 2. tranchant en phyllade; 3. "coin" en gabbro.

pl.23 - CLERMONT s/Berwinne - L'Engin.

Site	N°	Type	Long.	Forme		Section		Bords		Technique			Matière
								non équarris	équarris	taille	bouchard	polissage	
Aubin - Neuf.	6728	S2a	13,6		X		X	X		X			silex
Clermont S/B	-	S2a	-		X	X		X				X	silex
Aubin - Neuf.	6729	S3a	-		X		X		X			X	silex
Warsage	7168	F1b	9,45		X		X	X			X	X	quartzite
Warsage	HN6013	F1b	9,75	X			X	X			X	X	quartzite
Charneux	7123	Ftrapu	6,5		X		X	X			X	X	chert
