

LIST OF FIGURES

- Figure 1.1 The role of lithic economy.
- Figure 4.1 Base map showing location of study sites and raw material procurement zones.
- Figure 5.1 Map showing estimated distances to sources for study sites.
- Figure 6.1 Maisières-Canal. Location of site. (from Institut Géographique Militaire-Bruxelles, map no. 45/3-4, Jurbise-Obourg, scale: 1:25000).
- Figure 6.2 Maisières-Canal. Hypsometric map showing location of site. (after de Heinzelin 1973:40, Fig. 13).
- Figure 6.3 Maisières-Canal. Maisières in regional geological context. (after de Heinzelin 1973:41, Fig. 14)
- Figure 6.4 Maisières-Canal. Plan of excavations at Champ de Fouilles and Atelier de Taille de la Berge Nord-Est. (after de Heinzelin 1973: Planche I)
- Figure 6.5 Maisières-Canal. Reconstructed climatic sequences for Maisières-Canal and Harmignies. (after Haesaerts 1978:122, Fig. 4)
- Figure 6.6 Maisières-Canal. Correlation between profiles. (after Haesaerts and de Heinzelin 1979, Planche XVII)
- Figure 6.7 Maisières-Canal. Synoptic profiles demonstrating the successive phases of deposition in the Haine valley during the Pleniglacial (Phases II-IV). (after Haesaerts and de Heinzelin 1979, Planche XVIII)
- Figure 6.8 Maisières-Canal. Plan of Champ de Fouilles. (after Haesaerts and de Heinzelin 1979, Planche II)
- Figure 6.9 Maisières-Canal, Champ de Fouilles. Obourg flint showing chalk cortex.
- Figure 6.10 Maisières-Canal, Champ de Fouilles. Refit series 1 (G12.133, G12.186b, G12.186a, G12.46).
- Figure 6.11 Maisières-Canal, Champ de Fouilles. Font-Robert points.
- Figure 6.12 Maisières-Canal, Atelier de Taille de la Berge Nord-Est. Tools.
- Figure 6.13 Maisières-Canal, Atelier de Taille de la Berge Nord-Est. Flakes.
- Figure 6.14 Maisières-Canal, Champ de Fouilles. Raw material types.
- Figure 7.1 Huccorgne. Location of site. (from Institut Géographique National map 41/5-6, scale 1:25000)
- Figure 7.2 Huccorgne. Location of site. (from Institut Géographique National map 41/6, scale 1:10000)
- Figure 7.3 Huccorgne. Plan of excavations. (after Straus *et al.* 1997:172, Fig. 4)
- Figure 7.4 Huccorgne. West section, Huccorgne-Dock, main excavations 1992. (after Straus *et al.* 1997:174, Fig. 6)
- Figure 8.1 Les Grottes de Goyet. Location of site. (from Institut Géographique National map 48/5-6, scale 1:25000)
- Figure 8.2 Les Grottes de Goyet. Location of site. (from Institut Géographique National map 48/5, scale 1:10000)
- Figure 8.3 Les Grottes de Goyet. Plan of Cave no. 3 (after Dupont 1872:106, Fig. 12).
- Figure 8.4 Les Grottes de Goyet. Dupont's stratigraphy of Cave no. 3 (after Dupont 1872:107, Fig. 13).
- Figure 8.5 Les Grottes de Goyet. Variability in cortex. a-b) Obourg flint with chalk cortex, c) local chert with waterworn cobble cortex.
- Figure 9.1 La Grotte de Spy. Location of site. (from Institut Géographique National map 47/2, scale 1:10000)

- Figure 9.2 La Grotte de Spy. a) Location of site, b) geological context (after Lacroix 1981:12, Fig. 3 and 8, Fig. 2)
- Figure 9.3 La Grotte de Spy. Plan of excavations. (in Dewez 1980:40, Fig. 14, after de Loë and Rahir 1911)
- Figure 10.1 Le Trou Magrite. Location of site. (after Institut Géographique National map 53/7.8, scale 1:25000)
- Figure 10.2 Le Trou Magrite. Location of site. (after Institut Géographique National map 53/8, scale 1:10000)
- Figure 10.3 Le Trou Magrite. Paleolithic and Mesolithic cave sites of the Meuse-Lesse confluence area. (after Straus 1995:24, Fig. 2.2)
- Figure 10.4 Le Trou Magrite. Plan of excavations. (after Straus 1995:27, Fig. 2.3)
- Figure 10.5 Le Trou Magrite. Trench C, West Section. (after Straus 1995:37, Fig. 2.10)
- Figure 10.6 Le Trou Magrite. Trench C, East Section. (after Straus 1995:39, Fig. 2.12)
- Figure 10.7 Le Trou Magrite. Trench C, East Section. (after Straus 1995: 40, Fig. 2.13)
- Figure 10.8 Le Trou Magrite. Trench C, North Section. (after Straus 1995::41, Fig. 2.14)
- Figure 10.9 Le Trou Magrite. Summary of the Trou Magrite chronostratigraphy. (after Straus 1995::84, Table 4.5)
- Figure 10.10 Le Trou Magrite. Non-local Hesbaye flint, showing different degrees of patination.
- Figure 10.11 Le Trou Magrite. Local Viséen limestone.
- Figure 11.1 Couvin, Trou de l'Abîme. Location of site. (Institut Géographique National map 57/7.8, scale 1:25000)
- Figure 11.2 Couvin, Trou de l'Abîme. Location of site. (after Cattelain and Otte 1985:124, Fig. 1)
- Figure 11.3 Couvin, Trou de l'Abîme. Plan of excavations. (after Cattelain and Otte 1985:126, Fig. 2)
- Figure 11.4 Couvin, Trou de l'Abîme. Stratigraphic sequence, north sagittal profile, G-H6.7. (after Cattelain and Otte 1985:127, Fig. 3)
- Figure 11.5 Couvin, Trou de l'Abîme. Stratigraphic sequence, G-H8. (after Ulrix-Closset *et al.* 1988:235, Fig. 3)
- Figure 12.1 Hypothetical mobility cycle showing successive decrease in quantity and changes in reduction strategies as material is transported across space.
