

List of Figures

1	Location map of the Mount Carmel caves.	18
2	Distribution of major Natufian sites in the southern Levant.	20
3	Garrod's el-Wad.	21
4	The entrance to the cave today.	23
5	The entrance to the cave in 1928.	23
6	Geology of the Mount Carmel region.	28
7	Topographical map.	29
8	Composite lithostratigraphic scheme of the Carmel region.	30
9	The geology of Nahal Me'arot area.	31
10	The fossil reef of Nahal Me'arot.	32
11	Schematic section across the Carmel coastal plain in front of el-Wad.	33
12	Vegetation map, Mount Carmel.	35
13	Mount Carmel climatograph.	36
14	General view of the Nahal Me'arot caves at the beginning of the first excavations, 1929.	38
15	Map of the lower end of Nahal Me'arot (Wadi el-Mughara), showing the position of the caves.	39
16	Sefunim Cave, temperature and humidity 17-28 March 1969.	41
17	(a) Radiant and air temperatures in Kebara Cave, at rear (summer); (b) Radiant and air temperatures in the open air at sea level near Haifa (summer).	42
18	Temperature (spring and summer) and humidity (summer) measurements in el-Wad.	43
19	Territorial analysis of Nahal Oren Cave, within a radius of 5 km, with the modern Arab, sedentary, pastoral exploitation.	45
20	Territorial analysis of el-Wad Cave, within a radius of 5km.	46
21	Chamber I of el-Wad Cave and the enclosed terrace in front of it.	47
22	Location map of villages of origin of the herdsman.	49
23	Permanent stone constructions at the entrance to Isah Cave, Mount Carmel.	51
24	A view of the Carmel Caves from the coastal plain, in 1929.	54

25	The bare coastal plain in 1934, a view to the north.	54
26	Layouts of seismic refraction and GPR profiles in el-Wad Cave.	56
27	Interpreted seismic refraction profiles in el-Wad Cave, showing measured depth below surface.	58
28	GPR spread a, Chamber IV.	60
29	(a) GPR spread b, Chamber V; (b) GPR spread d, Chamber V.	60
30	(a) Garrod's key map of the cave; (b) Ground plan of the recent excavations in Chamber III.	64
31	The western section of squares I40-I42, at the end of the excavation.	65
32	General view from the south of the western part of the excavation.	66
33	The northern wall of square I42 during excavation.	66
34	The western wall of square I42 during excavation.	68
35	The western wall of square I41 during excavation.	68
36	General view of square I42 and the northern part of square I41, from south to north.	69
37	General view of squares I41-I42 from the north.	70
38	The circular arrangement of stones in squares I40-I41.	71
39	Distribution and calibration of selected ¹⁴ C dates for Early Natufian sites.	74
40	(a) Distribution of radiocarbon point-dates with single sigmas for various Early Natufian sites; (b) Distribution of calendaric ages for various Early Natufian sites.	75
41	(a) Distribution of radiocarbon point-dates with single sigmas for various Early Natufian sites. Unreliable dates excluded; (b) The same as Fig. 40b, reliable dates only.	77
42	Combined figure, showing radiocarbon and calibrated dates for Early Natufian sites. Reliable dates only.	78
43	Natufian cores.	80
44	Natufian endscrapers.	82
45	Natufian endscrapers and burins.	83
46	Natufian burins and an endscraper-burin.	84
47	Natufian tools.	85
48	Natufian heavy-duty tool.	87
49	Upper Palaeolithic cores.	89
50	Upper Palaeolithic endscrapers and a transversal burin.	90
51	Upper Palaeolithic endscrapers, el-Wad point and burins.	91
52	Natufian bone artefacts.	94
53	The decorated sickle haft from the recent excavations at el-Wad.	95
54	Natufian basalt utensils.	97
55	Natufian basalt tools.	98
56	The art objects uncovered by Lambert during his trial excavation in the cave.	100
57	Figurines from Garrod's and the new excavations at el-Wad.	101
58	Natufian rounded figurines recovered during the recent excavations at el-Wad.	102

59	Rounded and elongated figurines from the recent excavations at el-Wad.	103
60	Natufian figurines recovered during the recent excavations at el-Wad.	104
61	Natufian figurines from el-Wad.	106
62	A stone bead and sandstone "beads".	107
63	An incised limestone pestle from the recent excavations at el-Wad.	108
64	El-Wad Cave and Mount Carmel iron-oxides.	112
65	Types of ochre fragments found in the el-Wad Cave.	113
66	SEM analysis of red ochre found on a basalt pestle at el-Wad.	116
67	Mount Carmel: location map of the volcanic outcrops and iron-oxide mineralization sites.	118
68	Ternary diagram showing the vanadium (V), zinc (Zn) and arsenic (As) composition of the iron oxide veins and ochre fragments.	119
69	Charcoal pieces from el-Wad Cave as viewed in the Scanning Electron Microscope.	125
70	Schematic representation of the nature and interpretational difficulties of data derived from various disciplines.	130
71	Baruch and Bottema's Hula pollen diagram.	132
72	Correlation of curves representing the LGM – Lateglacial sections of the Ghab and Hula palynological sequences.	134
73	Simplified pollen diagram of Fazael-Salibiya sites.	136
74	Present-day plant formations in the Mount Carmel area.	142
75	A simplified Fairbanks Barbados sea level curve.	146
76	The foot of the hills and coastal plain near el-Wad.	147
77	Theoretical east-west section along the Carmel coastal plain in front of el-Wad Cave, during the Early Natufian.	148
78	Distribution of Tertiary – Quaternary basalts in the southern Levant and sites referred to in the text.	156
79	Garrod's plan of the cave at the beginning of her excavations, with Lambert's Trench 3.	159
80	Lambert's Trench 3 in the cave.	161
81	Tentative re-interpretation of the Early Natufian occupation of Layer B2 on the terrace and in the cave of el-Wad based on Garrod's reports.	163
82	View to the NW of the excavations on the terrace, showing rock-cut basins, "kerb" and a pavement, with H.23 and H.25 <i>in situ</i> , May 1931.	165
83	View to the NE of the terrace, showing rock-cut basins, "kerb", and rough stone wall. May, 1931.	165
84	A view to the SE of the terrace, showing rock-cut basins, "kerb", and rough stone wall.	166
85	Lambert's rough diagram showing a section of the stratification in his Trench 1.	168
86	Lambert's Trench 1 showing circular arrangement of stones.	170
87	Lambert's Trench 2, with the position of burials.	171

88	Structures from Lambert's Trench 3.	172
89	The Early Natufian wall in Lambert's Trench 3.	173
90	The Early Natufian wall in Lambert's Trench 3. View from the west.	173
91	A layer of small stones underneath the Natufian wall, in Lambert's Trench 3.	175
92	Arrangements of large stones in section C of Lambert's Trench 3.	176
93	A suggested general layout for the Natufian site at el-Wad.	178
94	General view of the caves at the close of excavations, 1934.	179
95	Neolithic to Early Bronze potsherds.	190
96	Pottery of the Persian to Roman-Byzantine period.	192
97	Roman lamps.	194
98	El-Wad – Fusion of hare (<i>Lepus capensis</i>).	207
99	El-Wad – Mortality pattern of gazelle based on epiphysis fusion.	216
100	El-Wad – Gazelle ageing based on teeth eruption.	216
101	El-Wad – Gazelle ageing based on wear stages.	217
102	Gazelle measurements of selected bones from Palaeolithic sites and recent samples.	218
103	El-Wad – Cranial versus post-cranial parts.	220
104	El-Wad – Proximal versus distal parts of gazelle and hare.	221
